About Speaker

Dr. Harish Jain
Translator, Parliament of India

Dr. Harish Jain has done his PhD from Jawaharlal Nehru University, New Delhi. He has also worked with Ministry of Home Affairs. He has translated several bestsellers for prominent publication houses and articles for reputed magazines.

About the Session

As education systems are diversifying and expanding, the creation of new jobs and opportunities are changing the way individuals make their career choices. With such changes in place, career planning has become more complex and confusing. Where formal sources of career guidance are not easily accessible, individuals tend to rely on their family and friends, leading to choices where they end up in careers they do not see a successful future in.

So, what is the way forward ? How can you make the right career decision..?

Well, our career guidance experts Dr. Harish Jain, can help you with that....

Greetings from UCWL!!

This has reference to your discussion with one of our executive Mr. Alok Saxena, Sr. Manager (HR & Legal) regarding recruitment of fresh M.Sc. (Chemistry/Organic Chemistry/Industrial Chemistry) Students of your Institute.

Udaipur Cement Works Limited (UCWL) was incorporated under Companies Act 1956 in the year 1993 under the name JK Udaipur Udyog Limited with the object of manufacturing of cement and marketing cement. UCWL acquired the plant of Udaipur Cement (a division of Bajaj Hindustan Limited) in December 1993.

Udaipur Cement Works Limited is one of the best capacity utilized cement plants with dry process technology with an installed capacity to produce 1.55 MTPA with a WHR Unit of 6 MW and 946 hectare of owns mines. It manufacturers a wide range of premium brand of cement and enjoys a reputation of giving value for money. It is one of the most modern cement plants in the country. The Unit and Management had deeply belief in Quality Systems and is accredited various National and International Awards & Certificates.

With an objective to inject the fresh blood into the organization, we have been engaging fresh M.Sc. (Chemistry-Organic/Inorganic) students from different reputed institutions in Rajasthan.

In this reference, kindly note that we are contemplating the association of final year students passing out in 2019 in **M.Sc. (Chemistry /Organic Chemistry/In Organic Chemistry)** disciplines for Campus/ Personal Interview at our plant.

APTITUDE- 'It's where your career begins'

Aptitude Tests are one of the most sought after test selection for various competitive posts. Aptitude tests are designed to assess your logical reasoning and thinking performance. As a student, it is important to understand what is embodied within the word "Aptitude" and why an "Aptitude Test" for career selection is important when tracking your path to success. Aptitude tests inculcate many factors like Numerical reasoning, Verbal ability, Abstract reasoning, psychometric testing, logical reasoning, speed & accuracy. Usually, these tests consist of Multiple choice questions (MCQs), wherein a student must select any one choice out of the given options. The test measures strongest and the weakest areas in each realm of understanding and the innate psychometric ability that the student may possess. Aptitude tests have a standardized method of administration and scoring, with result quantified and compared with all other test takers. Aptitude test can be taken online or at a testing center based on the exam you are appearing for. In today's scenario, you can see aptitude as a primary basis for selection for higher studies as well as job career growth.

Literary thought process by Students

Two Pillars: Focus & Concentration

Focus and Concentration are the two words which have merely a same meaning. Most people don't know how to improve focus and boost concentration because we have a constant distraction which makes focus difficult. We should have focus on our goals in life to achieve great heights. But really, do we know, what is Focus? Experts define focus as the act of concentrating your interest or activity on something. Focus can only occur when we have said yes to one thing and no to other things. We know that, focus doesn't require a permanent 'NO', but it does require present 'NO'. When we talk about Focus, we all have a same question- Why Can't I Focus? Most people don't have problem in focusing but rather they face problem in deciding. What I mean is that most healthy humans have a brain that is capable of focusing if we get the distractions out of the way. Instead of choosing one thing to focus on, we can try multitasking. Technically if we see, we are capable of doing two things at the same time. For example, to watch TV while doing studies. Multitasking forces your brain to switch your focus back and forth very quickly from one task to another. Secondly, "How to focus and increase your attention span?" To answer this question, let's know how to overcome our tendency to multitask and focus on one task at time. This can have different strategies by which we can overcome this.

- **MEASURE YOUR RESULTS:** First thing we have to do is to measure our progress. Because of feedback, we cannot focus. Our brain has a desire to know whether we are making progress or not toward our goals, and it is impossible to know without Feedback.
- **FOCUS ON THE PROCESS, NOT THE EVENT:** Second thing we can do to maintain long - term focus is to concentrate on processes, not events. We all see success as an event that can be achieved and completed.

PARIDHI PARIKH
M.B.A. (CMAT) Part I

They say, life is so much unpredictable and has mysterious surprises, So, live each and every moment as and when it arises.

Why can't we live our life on our own terms in this patriarchal society, Whatever we do, wherever we go, whenever we think differently, we have that kind of anxiety.

It seems as if only we are concerned about the bond and the connection, Either they take you for granted or treat you as a choice as they have many attraction.

We all have struggled so much in some or the other way to reach till here, And if we continue putting the utmost efforts, then the success will be very near.

Don't sacrifice your happiness, your life, your career for the ones who don't appraise or value, Infact make them feel your absence and know your worth & virtue.

zamane ko meri ek pukar aaj ye bhi hai
kya hota hai jab do log milte hai
kyu har choti baat pe log bhichadte hai
kyu sacchai se log katrate hai
kyu nahi khud ko vo mahefooz paate hai
kyu har pal mai jaan ka khatra rehta hai
kyu ab dil se door vo Tiranga rehta hai
musibat se bhagna hal nahi hota hai
har badi cheez ka agaaz chote se hota hai..

Carefully watch your thoughts, for they become your words. Manage and watch your words, for they will become your actions. Consider and judge your actions, for they have become your habits. Acknowledge and watch your habits, for they shall become your values. Understand and embrace your values, for they become your destiny.

— Mahatma Gandhi —

“Sit quietly and let the mind wander where it wants to go. Keep a strong faith that you are watching your mind drifting in all random directions. The mind is not you or I. Now try connecting with God but not with any worldly thing or relationship. After some time you will see that your mind is calming down like a serene lake. This will slow down the wandering of mind. Each day practice this and identify yourself. With time your mind will be under your control.”

-Swami Vivekananda

Life Lesson to Students by Ratan Tata

- Get used to the ups and downs of life. In life, things are never always good or always bad. Learn to go with the flow and make the best of any situation.
- People respect you more if you respect yourself. Do not show off before you prove yourself.
- Do not make the mistake of thinking you can get a high post or attain overnight success after graduating college. It take a lot of hard work and effort.
- If you think your teacher is strict, scary, hard, and dangerous, wait until you meet your boss. Your old teachers will pale in comparison.
- Do not blame yourself for your defeat, just learn from your mistakes and move forward.
- Your parents were not as boring and unimaginative before you were born, they matured after caring for and nurturing you.
- Consolation prizes are only in school. In reality the rules are different for those who fail. There are No second Chances for Losers.
- In real life, you do not get vacation after a few months of work, like you do in school. You do not get the luxury of teachers in adult life. You have to rely on yourself and teach yourself.
- What is shown on TV is not the reality of life. In reality there is Work and only work.
- Study Constantly and work hard. Do not tease your friends there may come a time that you have to work under them.

ALUMNI CORNER

When I passed out from FMS in 1991 with Marketing and Finance as my specialisation, I had the least expectation that I would land up working in a Public Sector Undertaking dealing into minerals in Rajasthan. We market a mineral called Rockphosphate which is primary a raw material for manufacturer of a fertiliser called Single Super Phosphate which is popularly used in major crops and consumed by us.

In the world of chemical fertilisers and insecticides and pesticides, our food quality, our eating habits, and our overall health is at big stake. So what's the answer to it? ORGANIC is the key word which is slowly and steadily catching up among the Indian farmers in view of the aware consumers. It is also gaining popularity after states like Kerala and Punjab being seriously infested with the deadly disease of Cancer. The only solution to this is organic farming. Fortunately our Rockphosphate is ideally suited for manufacture of Organic Fertilisers providing a rich source of 'P' i.e. Phosphate. Our branded product RAJPHOS is an organic fertiliser too and finds direct application in the acidic soils of the country where Tea, Coffee, Rubber and Spices are grown. So eating healthy and nutritious food is the primary concern of the present times as we are what we eat. As such, in light of high commercialisation, adulteration in food items is on the increase causing severe ill effects to the health of public at large. The fast food craze too is taking its own toll on health. In the olden times, at least ethical practices were followed in food items with no or little adulteration. So it takes pride in being associated with the ORGANIC world which is the future and needs full support and preference of every health conscious individual. So stay healthy and eat organic...

Hanumant Singh,

Senior Manager (Marketing) RSMML, M.B.A. (1989-90)

The strive to grab a job or hold a position in the professional front does not only end-up depending upon the institution, as such those b-schools or management institutes are the manufacturing factories of working people. In order to make one's own position,

one need to input own strength, will power, potential and diligence to stand out in the crowd. Along with gaining knowledge for degree, one should also focus on overall personality development to be able to compete in the fast pacing world. The Journey

As I entered the Campus for the first time,
I was curious & partly anxious in my mind,
How was atmosphere inside, who knew?
Will it be a corporate hustle bustle or my school like!
The mystery soon got unraveled!
There came a tall thin man,
With a few distinct expressions,
Such was his persona that mesmerized everyone.
All my fear turned into a glee,
To listen to this speaker of utmost extraordinaire.
Prof. PK Jain became a major reason,
Why people hurried to college at 10.
Some out of fear for attendance,
Some like me to listen to his experience.
All the challenges, be it time constraints for projects,
Or difficult topics of presentation,
Prepared me for the real world,
Which I will face in future.
Such was this forum that allowed you to speak,
About who you are & what you feel.
I couldn't be more thankful to all my peers,
Professors, Scholars and Dear ones.
Who have taken this journey with me
For all the trouble that I have caused, I deeply regret
And believe me never shall my association with you end.
I will always be a part of this institution,
Who gave me my identity, my profession,
I would always think about this time as a journey,
Which will guide me & last till the very end!

ये सवाल है

ये सवाल है हर उस भारत वासी से
इस मिट्टी को माँ कहने वाली हर वाणी से
कि क्यों वो अपनी माँ की सेवा में कतराता है
क्यों हर दीपावली दिव्यों से ज्यादा पटाखे जलाता है
अपने आँगन में गाड़ियाँ अनेक चाहता है
मगर पौधों के लिए जगह नहीं बना पाता है
कहता है कि गरीबी देश की सबसे बड़ी बीमारी है
क्या नहीं जानता इलाज के लिए अकेला काफी है
कहता है कचरा फैलाना बुरी बात है
फिर क्यों सफाई करते समय सिक्कड़ती तेरी नाक है
यूँ तो सरकार से सुविधा पूरी चाहता है
फिर कर देते समय क्यों फकीर बन जाता है
यूँ तो कहता है देश के लिए मरने को तैयार है
पौरुष दिखलाने को हर दम तैयार है
फिर क्यों तू कुछ नहीं कर पाता है
अपनी ज़िम्मेदारियाँ क्यों नहीं निभा पाता है
क्यों नहीं समझता देश की अंदरूनी रक्षा तेरी ज़िम्मेदारी है
सीमा पे लड़ने को मेरे देश का जवान ही काफी है
खुशी है मुझे इस बात की
सीखा है मेरे देश की आवाम ने
उन वीर बलिदानियों के परिवारों से,
देश के उन सफाई कर्मचारियों से
नियमों का पालन करने वाले हर नागरिक से
ज़िम्मेदारी निभाने वाले हर एक व्यापारी से
तरक्की की राह पर मील नहीं कुछ कदम तो बढ़े हैं,
पीछे नहीं सब आगे बढ़े हैं।
