

Department of Chemistry
Action Taken Report

Course '**Industrial Chemistry Discipline (Group E)**' has been introduced under the programme **M.Sc. Chemistry (CBCS)** based on the feedback received from the stakeholders i.e., students, teachers and experts. They discussed and suggested "to design a curriculum that combines theory and practical skills for industrial processes, guest lectures, and well-equipped labs. Maintain industry engagement for program evaluation and alignment with industry needs."

From the analysis of feedback, it has been concluded that these steps ensure that students gain practical skills, industry exposure, and relevant knowledge to succeed in industrial chemistry careers.

These suggestions were presented in the meeting of the Committee of Course (CoC) held on 25-01-2021. The CoC proposed **introduction of Industrial Chemistry Discipline (Group E)** under the programme **M.Sc. Chemistry (CBCS)**. The minutes of the CoC were approved in the meeting of the Faculty of science on 25-01-2021 and by the Academic Council on 28-01-2021. The revised course/ new course/ new programme was introduced from the academic session 2021.
