At the outset, the Director welcomed the HVC and the members of the IQAC. Thereafter, the meeting was started and the following agenda was laid out-

1. Allotment of separate office for NAAC related work

The Director requested the HVC to kindly allot a separate office space and contingency fund for IQAC so that all NAAC related documentation can be smoothly conducted. The HVC consented to the same.

2. Presentation regarding accreditation process-

Due to the establishment of new departments in the university, several new members have been added to the IQAC, to handle the data load of the total 41 departments. The Director, thus, requested Dr. Joohee Pradhan to give a brief presentation for the new members about the process of NAAC accreditation. Dr. Joohee explained in detail the following parts of the accreditation process-

- AQAR
- IIQA
- SSR
- DVV
- Peer team visit

3. Preparation of SSR

Dr. Avinash Pawar provided a brief summary of the work completed by the IQAC so far before the final submission of SSR-

- SSR is complete up to the year 2019
- AQAR for the five years (July 2016-Dec 2021) have already been filled and uploaded
- Each criterion is being handled by specific members for data compilation.

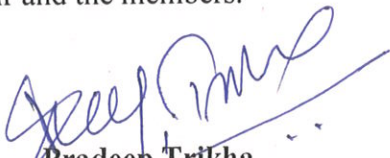

He suggested that new members had been added who will bring a fresh perspective and maybe a different way of looking at things so that lacuna, if any, can be filled in before showing to Deans heads and HVC. He requested that the work distribution among all members vis-à-vis respective criteria may be clearly specified. Several senior members were of the view that a rough draft of completed SSR may be presented approximately by the 15th of September for the scrutiny of the HVC along with the Deans and the Heads so that advice and suggestions may be solicited, in case of any lacuna in data. The HVC also called for a meeting of the IQAC in the first week of September.

4. Conclusive remarks by the Director

Finally, the Director emphasized upon the following points –

- Feedback submission from teachers/alumni/employees should be obtained in time.
- A data cell may be established for effective collection and storage of university data as repeated reference is needed by the IQAC for various ranking bodies annually.
- Action taken report to be approved at the next meeting.

The meeting was ended with a vote of thanks by the Director to the chair and the members.
