40.	Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology.	Discussion with teachers and students feedback was taken into consideration.
42.	Does the department obtain feedback from a. faculty on curriculum as well as teaching-learning-evaluation? If yes, how does the department utilize the feedback? b. students on staff, curriculum and teaching-learning-evaluation and how does the department utilize the feedback? c. alumni and employers on the programmes offered and how does the department utilize the feedback?	Yes, the feedback is utilized by changing the contents of the syllabus. Recently the semester scheme has been implemented in PG. Yes, syllabus is updated according to the NET syllabus, demands of industry and research as well as for better placement of students.
43.	List the distinguished alumni of the department (maximum 10)	List Enclosed

44.	Give details of student enrichment programmes (special lectures / workshops / seminar) involving external experts.	List Enclosed
45.	List the teaching methods adopted by the faculty for different programmes.	Use of ICT tools internet, e-books, PPT's
46.	How does the department ensure that programme objectives are constantly met and learning outcomes are monitored?	1. Result of students 2. Number of applications received for admission 3. Placement of students
47.	Highlight the participation of students and faculty in extension activities.	-
48.	Give details of "beyond syllabus scholarly activities" of the department. Department organizes student symposia for post-graduate students to inculcate the organizational and oratory skills among the students. Department organizes various debates, essay competition, quiz competition. Department celebrates sports week every year for various sports activities.	
49.	State whether the programme/ department is accredited/ graded by other agencies? If yes, give details. – Nil	
50.	Briefly highlight the contributions of the department in generating new knowledge, basic or applied - Details attached	
51.	Future plans of the department. 1. To develop microbial culture collection 2. To organize out research programme 3. To organize national level workshop in the department 4. To organize a faculty development programme	
52.	Detail any five Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department. Strength 1. Good Infrastructure 2. Computer room with internet facility 3. Committee room with modern teaching & learning aids 4. Equipped research laboratories 5. Enriched library Weaknesses 1. Only one faculty position 2. No permanent post for non-teaching staff. 3. Only one peon position Opportunities & Challenges 1. To create a center of excellence at state level 2. To create a highly equipped molecular biotechnology laboratory.

50. Briefly highlight the contributions of the department in generating new knowledge, basic or applied.

Generating new knowledge

The research group in the Department is working on the following thrust areas:

1. Probiotic Technology

The research group is working on this aspect from last 5 years. During this period 6 important Lactobacillus strains have been isolated from milk and curd samples which have tremendous probiotic potential. Three Lactobacillus strains have in vitro cholesterol removing property which is directly applicable for their possible use in treatment of coronary heart diseases.

2. Microbiological analysis of camel milk:

A total 54 lactobacilli strains have been isolated from camel milk in Udaipur district. A 15 isolates out of 54 were identified as Lactobacillus by molecular identification. These lactobacilli isolates of camel milk would be of immense importance and can be further explored for their use in dairy industry.

3. Bacterial Diversity in Heavy Metal Contaminated sites:

Two heavy metal tolerant *Pseudomonas aeruginosa* have been isolated from heavy metal contaminated sites of Zawar Zinc Mines, Udaipur (Rajasthan) which can tolerate Zinc upto 10 mM concentration. This study would definitely enrich the studies on diversity of heavy metal tolerance and lead to the application of these isolates for purposes like bioremediation of heavy metal polluted environment.

4. Bacterial Diversity of Fresh Water Lakes of Udaipur

A total of 60 strains have been isolated from lakes of Udaipur namely Pichhola and Fatehsagar. Out of them 10 strains have been identified. They belong to different genera including Escherichia, Pseudomonas, Enterobacter, Bacillus, Staphylococcus etc. Since lakes of Udaipur are the major source of drinking water of the city, monitoring bacteriological quality of lake water is of significant value in combating the problems associated with public health.

50.	Briefly highlight the contributions of the department in generating new knowledge, basic or applied. The Department has been actively involved in study of local flora ranging from lower to higher plants and has created a strong database of plants of Aravallis in Rajasthan. A field tested PROM technology has been developed which makes direct use of rock phosphate as fertilizer. A no. of field tested protocols for large scale production of plants of forestry, horticultural and medicinal importance have been developed. A large no. of medicinally important herbs have been identified for their ethano-medical uses and their efficacy has been tested against microbial pathogen.	
51.	Future plans of the department. Department is planning to including some of the new areas of research like understanding gene flow and genetic differentiation among population of some important endangered plants of Aravallies so as to revise conservation strategy and sustainable utilization. Understanding the effect of nano particles on phytoplanktonic flora. Studies on abiotic stress tolerance like drought and salt on important plants of the Aravallis, molecular biology of photosynthesis, studies on factors affecting in vitro morphogenesis, in vitro culture studies, production of secondary metabolites and effect of various elicitor to scale up the cost effective production of active ingredients, biological treatment of industrial effluent, study of antifungal and antibacterial activity of medicinal plants, study of mode of action of inhibitory activity of medicinal plants, study of nematicidal activity of medicinal plants, isolation of phosphate solubilizing bacteria and study of effect of these bacteria on seed germination, study of antioxidant activity of plants, studies on ecophysiology of important medicinal plants, plant tissue culture studies including micropropagation, somatic embrogenesis, organogenesis, in vitro and ex vitro rooting, effect of various plant growth regulators and genetic fidelity studies on important trees and medicinal plants.	
52.	Detail any five strengths, weaknesses, opportunities and challenges (SWOC) of the department - Appendix - I	

Strengths

1. The faculty members have been able to contribute significantly in the study of forest resources being located in an exclusive agro-geo-climatic area
2. Being a tribal dominated area, a large no. of studies have focused on ethano-medical uses of plants as practiced by tribals
3. Being forest rich area a large no. of studies has been possible for forest amelioration and development
4. This area is dominated by rich mineral deposit providing opportunities to study their sustainable use and remediation
5. Being rich in flora, the area has been extensively investigated and diversity recorded both in prints and digital formats.

Weaknesses

1. The university is located in an isolated part of south Rajasthan, largely cutoff from national mainstream
2. Hard agro-climatic conditions and difficult terrains have deprived this area from economic growth.
3. Being dominated by tribals and backward classes, there has been slow development in overall infrastructure.
4. Small size of department have not been able to impact much on national and international levels
5. Lack of development of new programmes in want of faculty members has deprived students of new development in science.

Opportunities

1. The resource rich area with rich phyto-diversity provides an opportunity for studies in future
2. The department can play in upliftment of the poor and tribals by creating awareness about the use of plants to earn their livelihood.
3. The department can play a vital role in mining waste management in the area
4. Being dominated by large no. of water bodies, there are no. of opportunities for study in improvement of water quality and ecosystem
5. Aravallies in general have been largely ignored for the presence of microbial flora which could be investigated in due course.

Challenges

1. Motivation among students about career in science is badly needed
2. We need to have sustainable growth without compromising the regeneration of natural resources in the name of development
3. We need to develop courses for the benefit of local population to equip them with skill and art of resource utilization
4. Changing agro-climatic conditions due to global changes in weather is creating bigger challenge to revise our strategy for natural resource utilization and management
5. We need to regenerate our depleting forest resources by the use of modern tools of science.

4 2	Does the Department obtained feedback from a) Faculty on curriculum as well as teaching – learning evaluation and how does the department utilize the feedback? b) Students on staff, curriculum as well as teaching learning evaluation and how does the department utilize the feedback? c) Alumni and employers on the programmes offered and how does the department utilize the feed back?	<p>The feedback from faculty is considered as suggestion to enhance the quality of teaching in classrooms as well as in practical exercise. The faculty is given a full access to e-library and the subject knowledge relevant to the curriculum is updated very frequently.</p> <p>The faculty suggestions are also incorporated in evaluation of students by conducting seminars and projects on various important topics of the papers allotted to the faculty from the curriculum.</p> <p>The internal assessment in the form of assignments and class tests also form an integral part of the syllabus. This keeps the students alert and regular in theory and practical classes. The allotment of marks for attendance confirms regular performance of students in both theory and practical classes.</p> <p>There is internal assessment for performance and regularity in practical classes which incorporate active participation of students to develop practical skills and active involvement in field experiments.</p> <p>The feedback from students help in evaluating the teaching methods adopted by the staff members and the compatibility of students with teaching faculty .the feedback also helps in revealing the lacunae if any left out by which the students want on the part of the staff members. The suggestions and drawbacks are hence forth communicated to the faculty which keeps them aware that they have updated their subject knowledge and practical skill.</p> <p>For a proper feed back</p> <p>The response from the alumni or employers from various public and private concerns are the great help which is helps to successfully fill in the gaps which occurred during the previous years of teaching. During the previous years of subject teaching .the employers where our pass outs students all placed in private and public section are able point out major problem which they are facing during practical implication of subject knowledge in Industries and other firms so that the present teaching faculty can seriously work upon these lacunae and overcome those problems, further a better lot of students with better practical experience in the subject can be produced from the department who are more successful in jobs without much flaws and difficulty.</p>

Vedprakash Ola working as project Scientist in FRI Dehradun 	
4 4	<p>Give details of students enrichment programmes (Special lectures/workshops, Seminars) involving external experts.</p> <p>Student enrichment programmes involves rigorous field exposure to the students through field visit to sanctuaries, National Parks and other places of ecological importance. Besides the students are assigned different projects in which they have to visit different industries and collect the data regarding environmental impact assessment. The students are taken to various local waste treatment plants and industries like Hindustan Zinc. Marble Mining and processing industries, Dairy industry so that they are practically able to see the effluent and drainage and treatment methods around the vicinity of our city.</p> <p>Further lectures from renowned scientists and environmentalists are also organized from time to time to update their existing knowledge on environmental economics. International exchange programme are also organized by the department to interact with environmentalist of other countries like South America and an MOU is also signed between ESPOJ and MLSU for this purpose</p>	
4 5	<p>List the teaching methods adopted by the faculty for different programs.</p> <ul style="list-style-type: none"> • Through student's seminars on different topics in all the four papers of the subject offered in M.Sc. • Giving assignments to be prepared by students on important topics of all four papers. • Through visit and excursion the students were given ample exposure to practical exercise which is integral part of applied subject. • The P.G students were given small project on environmental awareness programme to gave them independent identity and their visits to slum and local environmental problems of the area and they could also identify the major thrust areas which further research and investigative studies could be carried out 	
4 6	<p>How does the department ensure the program objectives are constantly met and learning outcomes monitored?</p>	<p>The learning outcomes were monitored by collecting the relevant information of task assigned to various students individually and their overall performance and interest was keenly observed through the factual data submitted by their faculty .The evaluation of report was frequently prepared these marks were added their overall percentage in the subject.</p>
4 7	<p>Highlight the participation of students and faculty in</p>	<p>The student participates in faculty extension activities by organizing small awareness programmes in slums and villages. They celebrated various occasions of environmental importance like the world environment Day, Ozone day,</p>

	extension activities	<p>Biodiversity week.</p> <p>The students actively participated in the plantation programmes by the department.</p> <p>Other activities like debate and essay writing on topics related to environment were also very popular among students</p>
4 8	Give details of “beyond syllabus scholarly activities “of the department.	<p>Many activities beyond the syllabi were also practiced by the students</p> <p>Active participation plantation in campus and other places.</p> <p>Regular visit to industrial pockets of the city.</p> <p>Monitoring of urban pollution (air, water and soil) in the vicinity of the city and in the assessment of water quality of lakes and other water resources.</p> <p>The identification of certain biodiversity rich zones in the area selection and preservation of certain endemic plants and animal species.</p>
4 9	State whether the programme/department is accredited/ graded by other agencies? If yes give details. -	
5 0	Briefly highlight the contributions of the department in the generating new knowledge, basic or applied.	<p>This is applied science subject and environmental problems are some of the current issues of interest for the policy makers and environmentalist.</p> <p>The estimation of the degree of pollution and its impact on plants, animals and human has opened new avenues and thrust areas for research and development.</p> <p>This area is mainly tribal zone and the role of tribal in conservation of natural wealth and their sociocultural taboos which help in protecting biodiversity of the region.</p> <p>The environmental Science is an applied subject in which all the local environmental problems have to be looked upon as a single problem to ensure awareness, protection and sustainable development.</p>
5 1	<p>Future plans of the department.</p> <p>The department is the first fully fledged in the state and being pioneer department of this popular applied subject of the department aspires to develop as the center for excellence where all hi-tech facilities are available in the labs as central facilities.</p> <p>The facilities which the department aspires is</p> <ul style="list-style-type: none"> ❖ Atomic absorption spectrophotometer. ❖ Polarograph ❖ Microtome ❖ Tissue processor ❖ BOD incubator ❖ Auto Clave ❖ Ozone analyzer ❖ Infra Red gas analyzer ❖ Stacl air sampler ❖ Ambient air sampler ❖ Weather station with all latest weather monitoring equipments <p>The Department also plans to develop a remote sensing lab for assessment of Environmental impacts on mining, desertification and deforestation and other soil erosion processes to successfully implement the management plans and strategies.</p>	

	<p>There are also plans to develop a hi-tech environmental analysis lab where All the air, water monitoring can be done at the state level to analyzed the samples .air water and soil so that the results can be compared with the data published by the pollution control boards of state and central level.</p> <p>In future there requirement of mobile labs well furnished with all latest equipments for environment analysis and monitory to give an authentic data base of the pollution status of the nearby areas in and around the city.</p>
5 2	<p>Detail any five strengths, weaknesses opportunities and challenges (SWOC) of the Department.</p> <ul style="list-style-type: none"> • Active participation of students and faculty in all programmes and activities of the department relevant to the syllabus and other involvement. • Role of faculty and active involvement of students and scholars in various projects assigned in PG level. Continuously guidance to the scholar to derive maximum output from the budding scientists. • Frequent field visits of students to give practical exposure and to give a firsthand experience to the young environmentalist with a full support and participation of the faculty not only enhance practical knowledge and skills among the scholars but also helps to bring about universities among the young brains for further knowledge. <p>Opportunities</p> <ul style="list-style-type: none"> • There are a wide range of scope and avenues in the subject • There is hundred percent placement in private and public sectors. • The students get jobs as environmental analyzer in industries, in state and central Pollution control boards and also in many legal courts as Environmental lawyer. • Ministry of environment and forest is a hub where young environmentalist. • Get their own projects of different environmental problems and issues. • Environmental science is a compulsory subject right from school level and so there are Job avcnus in teaching at school, college and university levels. • Udaipur being a city of lakes has many environmental problems related to water and students can run their own projects related water through Ngos. • Since it is a tribal area many medicinal plants and animals' species indigenous of area can be identified and patented by small project of practical Use

**DEPARTMENT OF PHARMACEUTICAL SCIENCES
UNIVERSITY COLLEGE OF SCIENCE
MOHANLAL SUKHADIA UNIVERSITY, UDAIPUR**

EVALUATION REPORT OF THE DEPARTMENT

1.	Name of the Department		Department of Pharmaceutical Sciences				
2.	Year of establishment		1998 (Degree)				
3.	Is the Department part of a School/Faculty of the University?		Part of Faculty of Science of the University				
4.	Names of Programmes / Courses offered (UG, PG, M.Phil., Ph.D., Integrated Masters; Integrated Ph.D., etc.)		B. Pharm Ph. D.				
5.	Interdisciplinary courses and departments involved		Nil				
6.	Courses in collaboration with other universities, industries, foreign institutions, etc.		Nil				
7.	Details of programmes / courses discontinued, if any, with reasons		D. Pharm discontinued in 1998, Upgraded to B. Pharm in 1998				
8.	Annual/ Semester/Choice Based Credit System		Annual				
9.	Participation of the department in the courses offered by other departments		Yes, in various departments of College of Science				
10.	Number of teaching posts sanctioned and filled (Professors/Associate Professors/Asst. Professors)				Sanctioned	Filled	
Professor			-	-			
Associate Professors			1	1			
Asst. Professors			5	4			
11.	Faculty profile with name, qualification, designation and specialization (D.Sc./D.Litt./Ph.D./M.Phil., etc.)						
	Name	Qualification	Designation	Specialization	No. of Years of Experience	No. of Ph.D. students guided for the last 5 years	
	Dr. P. K. Choudhury	Ph. D.	Professor	Pharmaceutics	21	06	

	Dr. C. P. Jain	Ph. D.	Professor	Pharmaceutics	20	0 4
	Dr. Lalit Singh Chouhan	Ph. D.	Associate Professor	Pharmacology	12	-
	Dr. Sunita Panchawat	Ph. D.	Asstt. Professor	Pharmacognosy	06	-
	Mrs. Joohee Pradhan	M. Pharm	Asstt. Professor	Pharmaceutical Chemistry	04	
12.	List of senior Visiting Fellows, faculty, adjunct faculty, emeritus professors List enclosed (Annexure 1)					
13.	Percentage of classes taken by temporary faculty – programme-wise information Nil					
14.	Programme-wise Student Teacher Ratio			B. Pharm – 8:1 Ph.D. – 6:1		
15.	Number of academic support staff (technical) and administrative staff: sanctioned and filled			Sanctioned- 05 Filled- 05		
16.	Research thrust areas recognized by funding agencies -					
17.	Number of faculty with ongoing projects from a) national b) international funding agencies and c) Total grants received. Give the names of the funding agencies and grants received project-wise. -					
18.	Inter-institutional collaborative projects and grants received b) All India collaboration b) International			-		
19.	Departmental projects funded by DST-FIST; UGC-SAP/CAS, DPE; DBT, ICSSR, etc.; total grants received.			Student Research Project funded by DST (Rs. 8000/-)		
20.	Research facility / centre with <ul style="list-style-type: none"> • state recognition • national recognition • international recognition 			Research Laboratory with following instrument: HPLC UV Spectrophotometer-1800 UV Spectrophotometer-1700 High Speed Centrifuge Flash evaporator Trinocular microscope with camera Binocular Microscope Dissolution Apparatus (6 Basket) Brookfield Viscometer		
21	Special research laboratories sponsored by / created by industry or corporate bodies			Nil		
22	Publications: <ul style="list-style-type: none"> * Number of papers published in peer reviewed journals (national / international) * Monographs * Chapters in Books * Edited Books * Books with ISBN with details of publishers * Number listed in International 			87 (List enclosed)- Annexure II 01 Yash publishing house. ISBN No. 81-86882-25-1. (Annexure II)		

	<p>Database (For e.g. Web of Science, Scopus, Humanities International Complete, Dare Database - International Social Sciences Directory, EBSCO host, etc.)</p> <ul style="list-style-type: none"> * Citation Index – range / average * SNIP * SJR * Impact Factor – range / average * h-index 	<p>87</p> <p>0.29- 5.4</p>
23.	Details of patents and income generated	-
24.	Areas of consultancy and income generated	-
25.	Faculty selected nationally/ internationally to visit other laboratories in India and abroad	02
26.	Faculty serving in a) National committees b) International committees c) Editorial Boards d) any other (please specify)	<ul style="list-style-type: none"> • Member of National Board of Accreditation, AICTE, New Delhi • Life member of APTI, Bangalore • Member of editorial board • Inspector of Pharmacy Council of India, New Delhi (Annexure III)
27.	Faculty recharging strategies	Faculty is regularly attending orientation and refresher courses organized by UGC, AICTE and PCI
28.	Student projects <ul style="list-style-type: none"> • percentage of students who have done in-house projects including inter-departmental projects - 100% • percentage of students doing projects in collaboration with other universities / industry / institute - 100% 	
29.	Awards / recognitions received at the national and international level by <ul style="list-style-type: none"> • Faculty • Doctoral / post doctoral fellows • Students 	Young Scientist Award -2011 by DST, New Delhi
30.	Seminars/ Conferences/Workshops organized and the source of funding (national / international) with details of outstanding participants, if any. – Nil	
31.	Code of ethics for research followed by the departments	-
32.	Student profile course-wise: B. Pharm-Students are admitted through state level Pre Pharmacy Test (PPT)	
33.	Diversity of Students	All over Rajasthan
34.	How many students have cleared Civil Services and Defence Services examinations, NET, SET, GATE and other competitive examinations? Give details category-wise.	GATE –48 List enclosed (last 5 years) Annexure IV
35.	7. Student progression	

Student progression	Percentage against enrolled
UG to PG	50%
PG to M.Phil.	-
PG to Ph.D.	-
Ph.D. to Post-Doctoral	-
Employed	
• Campus selection	
• Other than campus recruitment	40%
Entrepreneurs	10%

36.	Diversity of staff	
	faculty who are graduates	
	of the same university	-
	from other universities within the State	01
	from universities from other States	04
	from universities outside the country	-
37.	Number of faculty who were awarded Ph.D., D.Sc. and D.Litt. during the assessment period	Dr. Lalit Singh Chouhan (Ph.D.)- 2007 Dr. Sunita Panchawat (Ph.D.)- 2012
38.	Present details of infrastructural facilities with regard to a) Library b) Internet facilities for staff and students c) Total number of class rooms d) Class rooms with ICT facility e) Students' laboratories f) Research laboratories	No. of Books: 3447 (Departmental Library) Yes 02 01 06 01
39	8. List of doctoral, post-doctoral students and Research Associates a) from the host university b) from other universities	Ph.D. Awarded -15 Research Scholars -06 Annexure V
40.	Number of post graduate students getting financial assistance from the university. -	
41.	Was any need assessment exercise undertaken before the development of new programme(s)? If so, highlight the methodology. -	
42.	Does the department obtain feedback from g. Faculty on curriculum as well as teaching-learning-evaluation? If yes, how does the department utilize the feedback? h. Students on staff, curriculum and teaching-learning-evaluation and how does the department utilize the feedback? i. Alumni and employers on the programmes offered and how does the department utilize the feedback?	Yes, the feedback is utilized by changing the contents of the syllabus. Yes, syllabus is updated from time to time by Committee of Courses.
43.	List the distinguished alumni of the department (maximum 10)	Annexure VI
44.	Give details of student enrichment programmes (special lectures / workshops / seminar) involving external experts.	Guest lectures by senior visiting faculties

45.	List the teaching methods adopted by the faculty for different programmes.	Power point presentations, Notes distribution, Software application and Regular assessment
46.	How does the department ensure that programme objectives are constantly met and learning outcomes are monitored?	1. Day to day assessment 2. Result of students 3. Placement of students
47.	Highlight the participation of students and faculty in extension activities.	Annexure VII
48.	Give details of “beyond syllabus scholarly activities” of the department.	Guest lectures by senior visiting faculties
49.	State whether the programme/ department is accredited/ graded by other agencies? If yes, give details. -	
50.	Briefly highlight the contributions of the department in generating new knowledge, basic or applied. -	
51.	Future plans of the department.	Introduction of Masters Programme
52.	Detail any five Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.	1. Good Infrastructure 2. Seminar hall with LCD Projector 3. Equipped research laboratories 4. Enriched library with large space for reading 5. Only University Department in the State of Rajasthan.

LIST OF SENIOR VISITING FACULTY

PARTICIPATION OF STAFF IN EXTENSION ACTIVITIES

Prof. P. K. Choudhury

1. Acted as a Co Chairman of a Scientific session in Pharmaceutical Technology at the 59th Indian Pharmaceutical Congress, 2007 at Banaras Hindu University, Varanasi.
2. Acted as a Co Chairman of a scientific session in Pharmaceutical Technology at the 60th Indian Pharmaceutical Congress, at New Delhi between December 12 to 14th, 2008.
3. Participated in "Moodle Teacher Training" sponsored by World Health Organization (W.H.O.) from February 5 to February 7, 2007.
4. Attended a conference with the President of the Royal Pharmaceutical Society, U.K., members of the Ministry of Education, Malaysia and officials of the Taylor's University College, Subang Jaya, Malaysia from November 17 to November 22, 2008.
5. Delivered Lecture on the topic entitled "Good Manufacturing Practices" in the conference entitled Emerging trends and challenges in the field of Pharmacy organized by Rajasthan Pharmacy College, Jaipur.

6. Chairperson for poster session in the 14th National Convention of Association of Pharmacy Teachers of India organized by L. M. College of Pharmacy, Jodhpur.

Prof. C. P. Jain

1. Delivered Lecture on the topic entitled Novel drug delivery systems in the conference entitled Emerging trends and challenges in the field of Pharmacy organized by Rajasthan Pharmacy College, Jaipur.
2. Chairperson for poster session in the 14th National Convention of Association of Pharmacy Teachers of India organized by L. M. College of Pharmacy, Jodhpur.
3. Delivered Lecture on the topic entitled Niosomal delivery system in AICTE sponsored Staff development programme
4. on “Emerging trends in biotechnology and nanotechnology organized by Smriti college of Pharmaceutical Education, Indore, M. P.
5. Delivered Lecture on the topic entitled Pharmacovigilance in AICTE sponsored Staff development programme held at Sagar Institute of Pharmacy, Bhopal (M.P.)
6. Member of Advisory Board of 59th Indian National Congress held at Varanasi in Dec. 2007.

Dr. Sunita Panchawat

1. Training Programme on Research Methodologies; held on April 21-27, 2012 at Mohanlal Sukhadia University, Udaipur (Raj.).
2. Comparison of Free Radical Scavenging Activity of Ficus religiosa Linn. Stem Bark Extracts, Prepared by Different Methods of Extraction; IPA Convention 2011 on “Role of Pharmacists in Quality Health care Challenges and Opportunities”, held on Feb 19-20, 2011 at Indore (MP).
3. Optimization of Different Extraction Methods of Saraca asoca Roxb. De Wilde; in International Conference on Folk and Herbal Medicine, held on Nov 25-27, 2010 at Mohanlal Sukhadia University, Udaipur (Rajasthan).
4. Study of Antiulcer Activity of Hydroalcoholic Extract of Leaves of Withania somnifera Linn; in 61st Indian Pharmaceutical Congress (IPC) 2009, held on Dec 11-13, 2009 at Nirma University, Ahmedabad.
5. AICTE Sponsered National Seminar on “Analytical Method Development and Biomedical Analysis” held on Oct 28-29, 2010 at B.R. Nahata College of Pharmacy, Mandsaur (MP).
6. National Seminar on Current Issues on Drug Regulation and Quality Assurance in Pharmaceutical Industries held on Dec 15th 2009 at B. R. Nahata College of Pharmacy, Mandsaur (MP).

Students Participation

1. Students are members of NCC
2. Students involved in NSS activities
3. Students actively participate in cultural and sports activities at college and University level

**DEPARTMENT OF PHYSICS
UNIVERSITY COLLEGE OF SCIENCE
MOHANLAL SUKHADIA UNIVERSITY, UDAIPUR**

EVALUATION REPORT OF THE DEPARTMENT

1	Name of the Department		Physics			
2	Year of establishment		1965			
3	Is the Department part of a School/Faculty of the university?		Yes, Faculty of Science			
4	Names of Programmes / Courses offered (UG, PG, M.Phil., Ph.D., Integrated Masters; Integrated Ph.D., etc.)		B.Sc., M.Sc. (Physics), M.Sc. (IT), Ph.D.			
5	Interdisciplinary courses and departments involved		M.Sc. (Tech.) Nanoscience & Nanotechnology with Deptt. of Biotechnology and Zoology			
6	Courses in collaboration with other universities industries, foreign institutions, etc.		Ph.D. program with Physical Research Laboratory, Ahmedabad.			
7	Details of programmes / courses discontinued, if any, with reasons		PG diploma in Electronics Instrumentation, M.Sc. (Electronics): placement not up to mark.			
8	Annual/ Semester/ Choice Based Credit System		Annual for B.Sc. Semester for M.Sc. Ph.D. as per UGC 2009 regulations			
9	Participation of the department in the courses offered by other departments		M.Sc. (Biotechnology)			
10	Number of teaching posts sanctioned and filled (Professors/ Associate Professors/ Asst. Professors)			Sanctioned	Filled/Working	
			Professor	01	0	
			Associate Professors	04	4	
			Asst. Professors	08	7	
11	Faculty profile with name, qualification, designation and specialization (D.Sc. / D.Litt. / Ph.D./ M.Phil., etc.)					
	Name	Qualification	Designation	Specialization	No. of Years of Experience	No. of Ph.D. students guided for the last 5 years

12. Ab-initio Electronic structure calculations of α -, β -, and γ -KNO₃ energetic materials. Pradeep Jain and B. L. Ahuja J. Inter. Academy of Physical Sciences 15, 337-344 (2012).
13. Compton profiles and electronic properties of Nd J. Sahariya and B. L. Ahuja Phys. Scripta 84, 065702-1-5 (2011).
14. Compton profiles of MoP and WP: Validation of second order generalized gradient approximation R. Joshi, J. Sahariya, H. S. Mund, K. C. Bhamu, S. Tiwari and B. L. Ahuja

Comp. Mater. Sciences 53, 89-93 (2012)

15. Electronic properties of the magnetocaloric compound $GdAl_2$: A Compton scattering study J. Sahariya, H. S. Mund and B. L. Ahuja J. Phys. Chem. of Solids 72, 1515-1518 (2011)

16. Investigation of orbital magnetization in inverse spinel cobalt ferrite using magnetic Compton scattering H. S. Mund, S. Tiwari, J. Sahariya, M. Itou, Y. Sakurai, and B. L. Ahuja J. Appl. Phys. 110, 073914-1-4 (2011).

17. Electron momentum density and band structure calculations of α - and β -GeTe L. Vadkhiya, G. Arora, A. Rathor and B. L. Ahuja Rad. Phys. Chem. 80, 1316-1322 (2011).

18. Electronic and optical modeling of solar cell compounds $CuGaSe_2$ and $CuInSe_2$ A. Soni, A. Dashora, V. Gupta, C. M. Arora, M. Rérat, B. L. Ahuja and R. Pandey J. Electronic Materials 40, 2197-2208 (2011).

19. On the role of Al doping in $La_{0.7}Ca_{0.3}MnO_3$: A magnetic Compton scattering study B. L. Ahuja, S. Tiwari, A. Dashora, H. S. Mund, J. Sahariya, D. M. Phase, R. J. Choudhary, A. Banerjee, M. Itou and Y. Sakurai Appl. Phys. Lett. 99, 062515-1-3 (2011).

20. Magnetic Compton scattering study of Ga rich Co-Ni-Ga ferromagnetic shape memory alloys J. Sahariya, S. Tiwari, H. S. Mund, S. Sarma, A. Srinivasan, M. Itou, Y. Sakurai and B. L. Ahuja J. Phys.: Condens. Matter 23, 386002-1-7 (2011).

21. Use of chalcopyrite semiconductors $CuXSe_2$ ($X=Al, Ga$ and In) in solar cells: A theoretical study A. Soni, A. Dashora, V. Gupta, C. M. Arora and B. L. Ahuja Int. J. Sustainable Energy iFirst, 1 (2011)

22. Electronic properties and magnetic Compton scattering studies of full Heusler alloy Co_2MnSi A. Dashora, B. L. Ahuja, A. Vinesh, N. Lakshmi, M. Itou and Y. Sakurai. J. Appl. Phys. 110, 013920-1-5 (2011).

23. Compton scattering studies and electronic properties of cerium. G. Choudhary, V. Raykar, A. Dashora, J. Sahariya and B.L. Ahuja. J. Rare Earths 29 804-809 (2011).

24. Magnetic and electrical behaviour of Al doped $La_{0.7}Ca_{0.3}MnO_3$ manganites. S. Tiwari, D. M. Phase, R. J. Choudhary, H. S. Mund and B. L. Ahuja. J. Appl. Phys. 19, 033911-1-5 (2011).

25. Compton scattering study and electronic properties of vanadium carbide: A validation of hybrid functional R. Joshi, J. Sahariya and B. L. Ahuja Physica B 406, 2007–2012 (2011)

26. Electronic structure and Compton profiles of CdO and HgO. G. Choudhary, V. Raykar, S. Tiwari, A. Dashora and B. L. Ahuja. Phys. Stat. Solidi b 248, 212-219 (2011).

27. High energy Compton scattering study of TiC and TiN R. Joshi, K.C. Bhamu, A. Dashora and B. L. Ahuja. Appl. Rad. Isotopes 69, 756-761 (2011).

28. Electronic and optical properties of iron pyrite. L. Vadkhiya and B. L. Ahuja. *J. Alloy. Compound.* 509, 3042-3047 (2010).
29. Reversal of orbital magnetic moment on substitution of Bi in multiferroic Co_2MnO_4 : A magnetic Compton scattering study B. L. Ahuja, A. Dashora, N. L. Heda, S. Tiwari, N. E. Rajeevan, M. Itou, Y. Sakurai and R. Kumar *Appl. Phys. Letters* 97, 212502-1-3 (2010).
30. Temperature dependent spin momentum densities in Ni-Mn-In alloys B. L. Ahuja, A. Dashora, N. L. Heda, K. R. Priolkar, L. Vadkhiya, M. Itou, N. Lobo, Y. Sakurai, A. Chakrabarti, S. Singh and S. R. Barman *J. Phys. Condens. Matter* 22, 446001-1-11 (2010).
31. Spin dependent Compton scattering study of magnetic transitions in Ir doped CeFe_2 B. L. Ahuja, B. K. Sharma, V. Purvia, S. Tiwari, A. Koizumi, T. Nagao, Y. Sakurai and N. Sakai *J. Appl. Phys.* 108, 043902-1-5 (2010).
32. Electronic structure, Compton profiles and optical properties of TaC and TaN. A. Dashora and B. L. Ahuja *Rad. Phys. Chem.* 79, 1103–1110 (2010).
33. Electronic structure and optical properties of CuGaS_2 and CuInS_2 solar cell materials. A. Soni, V. Gupta, C. M. Arora, A. Dashora and B. L. Ahuja *Solar Energy* 84, 1481-1489 (2010).
34. Electronic properties and Compton profiles of silver iodide A. Dashora, A. Marwal, K. R. Soni and B. L. Ahuja *Pramana- J. Physics* 74, 1017-1027 (2010).
35. Magnetic and electronic properties of NiAs-type chromium chalcogenides. L. Vadkhiya, A. Dashora, M. K. Bhayani, A. R. Jani and B. L. Ahuja. *J. Mag. Magn. Mater.* 322, 2857-2867 (2010).
36. Electronic structure of Cr–Al alloy: Theory and experiment. A. Dashora and B. L. Ahuja. *J. Alloys Compounds* 501, 1-5 (2010).
37. Electronic structure, Compton profiles and cohesive properties of Cs-halides. V. Sharma, S. Tiwari and B. L. Ahuja. *Rad. Phys. Chem.* 79, 678–686 (2010).
38. Electronic properties and Compton profiles of molybdenum dichalcogenides. N. L. Heda, A. Dashora, A. Marwal, Y. Sharma, S. K. Srivastava, G. Ahmed. R. Jain and B.L. Ahuja, *J. Phys. Chem. Solids* 71, 187-193 (2010).
39. Compton profiles and electronic structure of HgBr_2 and HgI_2 . G. Ahmed, A. Dashora, M. Sharma and B. L. Ahuja *Appl. Rad. Isotopes* 68, 286-293(2010).
40. Variation of magnetoresistance in $\text{Ni}_{2+x}\text{Mn}_{1-x}\text{Ga}$ with composition. S. Banik, S. Singh, R. Rawat, P. K. Mukhopadhyay, B. L. Ahuja, A. M. Awasthi, S. R. Barman, and V. Sampathkumaran. *J. App. Phys.* 106, 103919 1-4 (2009).
41. Compton scattering studies of Mn-rich Ni-Mn-Ga ferromagnetic shape memory alloys B. L. Ahuja, G. Ahmed, S. Banik, M. Itou, Y. Sakurai and S.R. Barman *Phys. Rev.*

B 79, 214403 1-6 (2009)

42. Electronic properties of PbCl_2 and PbBr_2 using Compton scattering technique. G. Ahmed, Y. Sharma and B. L. Ahuja. *App. Rad. Isotopes* 67, 1050-1056 (2009).
43. A study of electron momentum density and charge transfer in W-Cu system. B. L. Ahuja, G. Arora, G. Ahmed, A. Rathor, V. Sharma, K. Kadas and R. Ahuja. *J. Alloys Compounds* 467, 595 – 599 (2009).
44. Electronic structure of TaC using Compton scattering technique. A. Dashora, L. Vadkhiya, N. L. Heda, Y. Sharma and B. L. Ahuja. *Asian J. Chem.* 21, 195-198 (2009)
45. Nature of bonding in chromium chalcogenides: A Compton profile study. L. Vadkhiya, N. L. Heda, A. Dashora and B. L. Ahuja. *Asian J. Chem.* 21, 199-202 (2009)
46. Directional Compton profiles and energy bands of palladium. G. Choudhary, N. L. Heda, G. Ahmed, V. Raykar, B. K. Sharma and B. L. Ahuja. *Asian J. Chem.* 21, 203-206 (2009)
47. Magnetic Compton scattering study of shape memory alloys. B. L. Ahuja, V. Sharma and Y. Sakurai. *Advanced Materials Research* 52, 145-154 (2008) (Review Article)
48. Electronic structure of α - and β - brass. R. S. Dhaka, S. Banik, A. K. Shukla, V. Vyas, A. Chakrabarti, S. R. Barman, B. L. Ahuja and B. K. Sharma *Phys. Rev. B* 78, 073107 1 to 4 (2008).
49. Magnetoresistance behavior of ferromagnetic shape memory alloy $\text{Ni}_{1.75}\text{Mn}_{1.25}\text{Ga}$. S. Banik, R. Rawat, P. K. Mukhopadhyay, B. L. Ahuja, A. Chakrabarti, P. L. Paulose, S. Singh, A. K. Singh, D. Pandey and S. R. Barman. *Phys. Rev. B* 77, 224417 1 to 9 (2008).
50. A charge Compton profile study of Ni_2MnGa : Theory and experiment. G. Ahmed, B. L. Ahuja, N. L. Heda, V. Sharma, A. Rathor, B. K. Sharma, M. Itou, Y. Sakurai and S. Banik *Advanced Materials Research* 52, 181-186 (2008).
51. Magneto-transport and magnetic properties of Ni-Mn-Ga. S. Banik, R. Rawat, P. K. Mukhopadhyay, B. L. Ahuja, A. Chakrabarti and S. R. Barman. *Advanced Materials Research* 52, 207-213 (2008).
52. Compton profile and band structure calculations of IV-VI layered compounds GeS and GeSe A. Rathor, V. Sharma, N. L. Heda, Y. Sharma and B. L. Ahuja. *Rad. Phys. Chem.* 77, 391-400 (2008).
53. Electronic structure of some mercury chalcogenides using Compton spectroscopy. G. Arora and B. L. Ahuja *Rad. Phys. Chem.* 77, 9-17 (2008).
54. Unusual electronic properties of InN. V. Sharma and B. L. Ahuja. *Physics Lett. A* 372, 5377-5380 (2008).
55. Electronic structure of layer type tungsten metal dichalcogenides WX_2 ($\text{X} = \text{S}, \text{Se}$) using Compton spectroscopy: Theory and experiment. G. Arora, Y. Sharma, V. Sharma, G. Ahmed, S. K. Srivastava, and B. L. Ahuja. *J. Alloys Compounds* 470, 452-460

(2008)

56. Electronic structure and Compton profiles of tungsten. B. L. Ahuja, A. Rathor, V. Sharma, Y. Sharma, A. R. Jani and B. K. Sharma. *Z. Naturforsch* 63a, 703-711 (2008).

57. Band structure calculations and electron momentum densities of AgCl and AgBr
A. Rathor, G. Arora and B. L. Ahuja. *Physica Status Solidi b* 245, 1563-1570 (2008)

58. Study of electronic structure and Compton profiles of PbS and PbSe. N. L. Heda, A. Rathor, V. Sharma, G. Ahmed, Y. Sharma and B. L. Ahuja. *J. Alloys Compounds* 463, 47-54 (2008)

59. Compton profile study of aluminium nitride. V. Vyas, Y. C. Sharma, V. Purvia, N. L. Heda, Y. Sharma, B. L. Ahuja and B. K. Sharma. *Z. Naturforsch.* 62a, 703-710 (2007).

64. A Compton profile study of praseodymium and erbium. B. L. Ahuja and S. Khera. *Indian J. Phys.* 81, 321-330 (2007).

65. Electronic structure of hafnium: A Compton profile study. S. Khera, S. Mathur and B L Ahuja. *Pramana-J. Phys.* 68, 91-98 (2007).

66. Compton profiles and band structure calculations of CdS and CdTe. N. L. Heda, S. Mathur, B. L. Ahuja and B. K. Sharma. *Phys. Stat. Solidi (b)* 244, 1070-81 (2007).

(b) In conferences:

67. Spin momentum density of Nd using Compton spectroscopy. J. Sahariya, S. Tiwari, A. Dashora, H. S. Mund, M. Itou, Y. Sakurai and B. L. Ahuja. (Presented in 57th DAE -Solid State Physics Symposium, IIT Mumbai, Mumbai)

68. Real space analysis of Compton profile of Heusler alloy Ni_2TiAl . J. Sahariya, H. S. Mund and B. L. Ahuja. *AIP Conference Proceedings* 1447, ISBN 978-0-7354-1044-2 (Presented in 56th DAE -Solid State Physics Symposium, SRM University, Chennai)

69. Magnetic Compton scattering study of $\text{Ni}_2\text{Mn}_{1.4}\text{Sn}_{0.6}$ Shape memory alloy. A. Dashora,

H. S. Mund, J. Sahariya, K. R. Priolkar, N. Lobo, M. Itou, Y. Sakurai and B. L. Ahuja Presented in 3rd National Conference on Condensed Matter and Materials Physics, March 3-5, 2012, Vallabh Vidyanagar

70. Investigation of electron momentum distribution in Gd₂O₃: A Compton scattering study A.M.Ghaleb, F.M.Mohammad, J. Sahariya, K. C. Bhamu and B. L. Ahuja. Presented in 3rd National Conference on Condensed Matter and Materials Physics, March 3-5, 2012, Vallabh Vidyanagar

71. Compton profiles and nature of bonding in tantalum chalcogenides K.C. Bhamu, A. Sharma, A. R. Jani and B.L. Ahuja Presented in National Symposium on Advances in Materials Science and Technology, Feb. 3-4, 2012, Ahemedabad.

72. Compton scattering and electronic properties of tungsten ditelluride G. Arora and B. L. Ahuja Presented in National Symposium on Advances in Materials Science and Technology, Feb. 3-4, 2012, Ahemedabad.

73. Role of oxygen atoms in bonding properties of semiconducting tungsten trioxide N. L. Heda, A. Dashora and B. L. Ahuja. Presented in National Symposium on Advances in Materials Science and Technology, Feb. 3-4, 2012, Ahemedabad.

74. Energy band structure and Compton profile of niobium carbide. R. Joshi, S. Sharma and B. L. Ahuja. Presented in National Symposium on Advances in Materials Science and Technology, Feb. 3-4, 2012, Ahemedabad.

75. Compton scattering study of magnetocaloric compound GdAl₂ J. Sahariya, H. S. Mund and B. L. Ahuja. Presented in 2nd National Conference on Advanced Materials and Radiation. Physics, Nov. 2011, Longowal

76. Cohesive energy of Nd using Compton scattering technique. J. Sahariya, H. S. Mund and B. L. Ahuja. Presented in 2nd National Conference on Advanced Materials and Radiation. Physics, Nov. 2011, Longowal (Best poster award)

77. Compton profile and band structure of α -GeTe. G. Arora, L. Vadkhiya and B.L. Ahuja Presented in National Conference on Functional Materials, Feb. 2011, Jodhpur

78. Reduction of area of solar photovoltaic panel by using appropriate solar cell materials. A. Soni, C.M. Arora, V. Gupta, Alpa Dashora and B.L. Ahuja. Presented in National Conference on Innovative Dovelopement in Next Decade: Challenges, Issues and Solutions, Feb. 2011, Jodhpur

79. Applicability of chalcopyrites CuXSe₂ (X=Al, Ga and In) in solar cells. A. Soni, Alpa Dashora, V. Gupta, C.M. Arora and B.L. Ahuja. Presented in International Conference on Renewable Energy 2011, Jaipur, India

80. On the possibility of solar cell applications of iron pyrite. L. Vadkhiya and B. L. Ahuja AIP Conference Proceedings 1349, ISBN 978-0-7354-0905-7. (Presented in 55th DAE - Solid State Physics Symposium, University of Manipal, Manipal)

81. Electronic momentum densities of TiC and TiN using hybrid functional theory. R. Joshi, K.C. Bhamu, Alpa Dashora and B.L. Ahuja. Presented in NCRTEP-2011, VP &

RPTP Science College, Anand, Gujarat, India.

82. Compton scattering study on the electronic properties of VC and NbC. R. Joshi, Alpa Dashora and B.L. Ahuja. Presented in National Symposium on Radiation Physics and Nano-Materials, (NSRPN- 11), Department of Physics, Panjabi University, Patiala, India

83. Electronic structure and magnetic properties of Ni_2MnSn Heusler alloy. H.S. Mund, Alpa Dashora, J. Sahariya, K.C. Bhamu, K.R. Priolkar, Nelson Lobo, M. Itou, Y. Sakurai and B.L. Ahuja. AIP Conference Proceedings 1349, ISBN 978-0-7354-0905-7. (Presented in 55th DAE -Solid State Physics Symposium, University of Manipal, Manipal)

84. Magnetic Properties of Co_2MnO_4 using Magnetic Compton Scattering. B.L. Ahuja, Alpa Dashora, N.L. Heda, Shailja Tiwari, Ravi Kumar, M. Itou and Y. Sakurai. AIP Conference Proceedings 1347, ISBN 978-0-7354-0903-3. (Presented in International Conference of Magnetic Materials (ICMM-2010), SINP, Kolkata)

85. Spin Momentum Densities of Chromium Chalcogenides. L. Vadkhiya, Alpa Dashora and B. L. Ahuja. Presented in International Conference of Magnetic Materials (ICMM-2010), SINP, Kolkata.

86. Role of in-house Compton spectrometers in probing the electronic properties. N. L. Heda and B. L. Ahuja (Review article). Recent Trends in Radiation Physics Research, 25-30 (2010). (Proceedings of 18th National Symposium on Radiation Physics, Himanshu Publications, Udaipur 2009). ISBN No. 978-81-7906-227-2

87. Electronic structure of Bi_2S_3 and Bi_2Se_3 using Compton spectroscopy. Y. Sharma, P. Srivastava, G. Ahmed, Alpa Dashora, L. Vadkhiya and B. L. Ahuja. Recent Trends in Radiation Physics Research, 323-324 (2010). (Proceedings of 18th National Symposium on Radiation Physics, Himanshu Publications, Udaipur 2009). ISBN No. 978-81-7906-227-2

31	Code of ethics for research followed by the departments: The Physics department strictly insists on originality in content/language etc. for research papers and thesis. The papers are checked for inadvertent duplication of passages etc.using on-line plagiarism checking software. Departmental monitoring is enabled through the frequent presentation by Ph.D students and annual presentation of progress reports. Quality of research work is ensured by strongly urging publication of atleast two papers in peer-reviewed journals with a minimum of one in an international journal of repute for submission of Ph.D thesis.

50	<p>Briefly highlight the contributions of the department in generating new knowledge, basic or applied.</p> <p>The contribution of different faculty members to enhance the scientific knowledge and start new era of international research is unambiguously evident from the list of publications given at section 22. Just for example, Compton profile group headed by Prof. B.L. Ahuja has reported the charge Compton profiles of a variety of materials involving some transition metal chalcogenides and halides like, MoS₂, MoSe₂, WS₂, WSe₂, CrS, CrSe, CrTe, HgS, HgSe, PbCl₂, PbBr₂, AgCl, AgI, etc., ceramic materials, alloys and compounds like NbB₂, CaTiO₃, SrTiO₃, TiC, TiN, VC, WC, MoP, WP, GdAl₂, Cr-Al alloy, W-Cu alloy, etc. They have interpreted their experimental data in terms of theoretical momentum densities computed using three different electronic structure methods namely, LCAO, FP-LAPW and SPR-KKR. Using the magnetic Compton spectrometer available at SPring8, Japan, Prof. Ahuja and his group has measured the temperature and field dependent magnetic Compton profiles of Fe, CeFe₂, Ru, Ir doped CeFe₂, Co, Ni, Fe-Ni system; Sm_{0.55}Sr_{0.45}MnO₃, Ni_{2+x}Mn_{1-x}Ga (x = 0.03, 0.25 & 0.35), Bi_xCo_{2-x}MnO₄ (x = 0, 0.3), La_{0.7}Ca_{0.3}Mn_{1-x}Al_xO₃ (x=0, 0.02, and 0.06), Co_{1.8}NiGa_{1.2}, Co₂Ni_{0.75}Ga_{1.25}, CoFe₂O₄, Ni_{1-x}Zn_xFe₂O₄ (x = 0, 0.1, 0.2), Co₂MnSi, Cu_{1-x}Ni_xMnSb (x = 0.17, 0.22), Ni₂MnIn, Ni₂Mn_{1.4}In_{0.6}, Ni₂MnSn, Ni₂Mn_{1.4}Sn_{0.6}, CoFe_{1.95}Re_{0.05}O₄ (Re = Dy, Gd), NiFe_{1.95}Re_{0.05}O₄ (Re = Dy, Gd), Ni_{1-x}Nd_xFe₂O₄ (x = 0.05, 0.1), NiFe_{2-x}Pr_xO₄ (x = 0.02, 0.04), Ni_{2+x}Mn_{1-x}Sn (x = 0.05, 0.1), La_{0.7}Ca_{0.3}Mn_{0.95}TM_{0.05}O₃ (TM = Ni, Co), CoGa_{0.6}Fe_{1.4}O₄, CoGa_{0.4}Fe_{1.6}O₄. The data have been analysed in terms of spin/orbital moments, DOS, Fermi surface topology, etc.</p> <p>Furthermore, in telegraphic language, the Hyperfine Interaction group (Prof. K. Venugopalan and Prof. N. Lakshmi) has studied the hyperfine interaction and magnetic properties of nanosized ferrites, intermetallic alloys and multilayers, films of transition metal based magnetic oxides, etc. Ionospheric and Atmospheric Physics group has studied the equatorial and low latitude ionospheric variability during various space weather conditions as well as during eclipses phenomenon as well as on the night time TEC</p>

	<p>depletions using the multiple station GPS derived TEC data.</p> <p>Material Science group have carried out detailed investigations on the effect of transition metal substitution on the structural, electronic and magnetic properties of DMS, multi ferroics, etc. Astronomy and Astrophysics group has carried out research work involving multiwavelength, and so on.</p>
51	<p>Future plans of the department.</p> <p>Post Graduate Teaching:</p> <p>From the session 2010-11, we have adopted the semester system in M.Sc. (Physics) as per UGC guidelines. Department has been offering a number of electives as special paper which are as per the thrust areas of research, and where sufficient man power is available for teaching. Special papers on Condensed Matter Physics, Ionospheric & Atmospheric Physics, X-Ray Spectroscopy, Astronomy & Astrophysics, Radiation Physics and Advanced Digital Electronics have been offered.</p> <p>The vision 2020 document of DST has identified Nanoscience & Technology as the thrust area of Physics in which vigorous efforts and dispensations is expected in future. In tune with the national needs, and because the department has now very strong faculty and research support in the afore-said field, it is envisaged to start a new courses on M.Sc. (Applied Physics)/ M.Tech in Nanoscience & Technology.</p> <p>This course will ensure availability of suitable candidates to pursue research in the field of nano sciences, as a huge investment in term of research funding is being asked for. Therefore, the proposed changes at the post graduate teaching are in tune with what is being proposed for research activities to be undertaken by the department.</p> <p>RESEARCH PLANS FOR NEXT FIVE YEARS</p> <p>Following is the research plan for next five years to be carried out by different groups:</p> <p>I: Hyperfine Interactions & Nanomagnetic Materials Group</p> <p>Faculty Members: Prof. K. Venugopalan & Prof. N. Lakshmi</p> <p>Hyperfine interactions and nanomagnetic materials group proposes to continue to use hyperfine interactions method for microscopic investigations of materials. The group will also measure bulk magnetic properties using VSM and undertake magneto resistance measurements in bulk and multilayers of nanostructured magnetic materials.</p> <p>II. Ionospheric Physics</p> <p>Faculty Member: Prof. Rajesh Pandey</p> <p>Department of Physics has a long history of pursuing research in the field of Ionospheric and Atmospheric Physics. During late seventies and eighties, the activities were mainly concerned with the measurements of Ionospheric Absorption of radio waves and Ionospheric Drifts of electron density irregularities. During the ninties, the main focus was on Ionospheric Scintillations in the VHF range and low altitude (D-region heights during the daytime and E-region heights during the nighttime) ionospheric characterization through VLF signal propagation. Worldwide omega transmitting stations were used for the later studies. Presently, studies related to the equatorial spread F and space weather are being pursued using a GPS receiver. During the next five years, it is envisaged to expand</p>

the scope of these studies using multiple instruments like a grid of GPS receivers, an ionosonde and an airglow imager, so that various facets of the issues related to the equatorial spread F and space weather may be studied simultaneously.

The main thrust of ionospheric studies, to be conducted during the next five years, concerns with the

- (1) Equatorial Spread F (ESF)
- (2) Space Weather Effects

III. Compton Profile and Theoretical Condensed Matter Group

Faculty Member: Prof. B.L. Ahuja
Mr Subash Chandra

The Compton profile group headed by Prof. B.L. Ahuja is interested in undertaking theoretical and experimental investigations of electronic and magnetic properties of various technological important materials. Accordingly, the group wishes to employ X-ray photoelectron spectroscopy, relativistic band structure calculations, charge and magnetic Compton scattering and Physical properties measurement system (PPMS).

IV. Astronomy & Astrophysics Group

Faculty Member: Prof. S.N.A. Jaafrey

The future plan has two aspects: (1) Observational (using optical telescope), and (2) Theoretical (modeling and analysis of satellite data)

Multiwavelength observations are being used in the extraterrestrial research nowadays to investigate both the visible and invisible universe. Telescopes of Multiwavelength expand the observing power of the astronomers by revealing faint objects.. The observations in wide range of electromagnetic spectrum including the cosmic, gamma, X-rays, U.V., visible, IR, microwave and radio waves have been utilized in studies of celestial objects in sky. These drive the evolution of astronomical model.

V. Atmospheric Physics Group

Faculty Member: Prof. B.M. Vyas

- (1) Monitoring of Surface Ozone, NO_x, CO, SO₂, and Total Hydro Carbon (THC) over different environments over Indian Tropical Zone.
- (2) Aerosols spectral, mass, size and number density distributions studies over Tropical station.
- (3) Role of Aerosols and Black carbon in Atmospheric Radiation Budget.
- (4) Long term studies of UHF and L- Band ionospheric scintillation.

VI. Materials Science Group

Faculty Member: Prof. M. Roy

The main objective for the next five years are to prepare different combination of multiferroic materials in pure and substituted form by standard solid state reaction, chemicals and sol-gel route.

	<p>Group I: Pure and substituted (on A and B cation sites) multiferroic materials (a) BiFeO_3 (b) $\text{Bi}_{1-x}\text{La}_x\text{FeO}_3$</p> <p>Group II: Solid solution of ferroelectric and ferrite (ferromagnetic materials) such as $\text{PbTiO}_3+\text{Fe}_3\text{O}_4$ and others.</p> <p>Group III: Solid solution of multiferroic with perovskite type material such as $\text{BiFeO}_3+\text{BaTiO}_3$.</p> <p>VII. Magnetism and Magnetic Materials</p> <p>Faculty Member: Dr. S. Kumar</p> <p>The objective for the next five years are to make detailed experimental investigations on the modification/evolution of magnetic structures influenced the by metallic substitutions in certain magnetic perovskites. We plan to address two aspects related to the magnetism of the mixed-valence manganese perovskites. One is to examine the effect of divalent alkali or alkaline earth cation substitution on the A site and 3d metal substitution at the B site in the perovskites on the structural and magnetic properties. The other is to correlate structural parameters with the magnetic properties and to compare the similarities and differences of the magnetic behaviour of ferromagnetic and cluster/spin-glass compositions.</p> <p>VIII. Applied Condensed Matter Physics</p> <p>Faculty Member: Dr. M. S. Dhaka</p> <p>During next five years, it is planned to undertake growth and characterization of CdTe thin films for Photovoltaic Applications in solar cells. It is also proposed to undertake experimental Compton scattering measurements and ab-initio calculations to study electronic structure of some important transition metals based alloys and compounds.</p>
52	<p>Detail any five Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.</p> <p>Strengths:</p> <ol style="list-style-type: none"> 1. Large number of research projects and excellent research instruments (see annexure I) 2. Very impressive publications in international peer reviewed journals of high impact factor 3. Almost all the faculty members are reviewers of international peer reviewed journals 4. Excellent M.Sc. laboratories 5. Very cohesive environment in the department. <p>Weaknesses:</p> <ol style="list-style-type: none"> 1. More funding by state government is required 2. More teaching faculty is required 3. More non-teaching staff is required 4. More buildings to have new laboratories. <p>Opportunities: More international collaborations/MoUs.</p> <p>Challenges:</p> <ol style="list-style-type: none"> 1. To develop centre of excellence in Condensed Matter Physics 1. To develop Nanoscience and Nanotechnology Centre 2. To get more research projects 3. To have publications in journals like Nature, Science (impact factor about 20)

It is planned that the course is expanded to partly meet projected demand of one million technical man power (RSSDC). For this polymer education is required to be introduced at under graduate level also.</p>	
52.	Detail any five strengths, weaknesses, opportunities and challenges (SWOC) of the department - Appendix - I	

Strengths

1. 100% placement of Students
2. Active industry institution relationship.
3. Continuous exposure of students to different polymer product industries.
4. Continuous support from alumni
5. Healthy class room environment.

Weaknesses

1. Poor building and laboratory infrastructure
2. Shortage of teaching and other technical staff.
3. Lack of awareness among the students about the importance of subject and course
4. Poor response from small scale industries.

Opportunities

1. Due to ever-expanding scope of polymer in daily life students have ample opportunities for placement.

- Rubber Industries have been placed as one among the 20 skills development sectors by the government of India through which one million skilled man power.
- Increase in cost of natural Rubber and depletion of petroleum stocks is making availability of natural Rubber and synthetic Rubber difficult. Thus, there is an urgent need for alternatives.
- Continued expansion on national economy is putting increasing demand of Rubber, Rubber Chemicals and Rubber products environmental cleanliness is a big concern and opportunity for development of green polymeric products.

Challenges

- Placement of female candidates.
- Motivation of among B.Sc. students for the course is badly needed.
- To build infrastructure for making the department as centre of excellence in teaching, learning, training and research in rubber and other polymeric.
- To create our environment pollution free and not polymer free.
- Comprehensive interaction with all sectors of industries and related government department so that the department can act as a bridge to share technical know-how.

Thus we represent an innovative department and the oldest too. • We have a team of more than 23 research scholars who are working towards their Ph. D. Degree in the capacity of JRF or SRF. • Post graduation strength is also high because of the popularity of the subject as well as the faculty. <p>WEAKNESS:</p> <ul style="list-style-type: none"> • We have no independent entity as we are a part of School of Social Sciences and Humanities, M. L. Sukhadia University, Udaipur. • We don't have independent budget allocation. • Even Ministerial staff is also available on sharing basis. • Non availability of quality journals. • Hence our students do not get fair deal in International terms. <p>OPPORTUNITIES</p> <ul style="list-style-type: none"> • Head of the Department is a member to several professional bodies • Major Research Project will shortly be submitted to the University • Due to young staff members department has better research opportunities. <p>THREATS</p> <ul style="list-style-type: none"> • All humanities subjects are under threat hence English is also under threat. • Since department has no independent structure hence lack of funds hinder growth. • Quality of students available in the subject is degrading rapidly. • Inadequate funds for infrastructure in the department.

**THE EQUAL OPPORTUNITY CELL (EOC)
UNIVERSITY COLLEGE OF SOCIAL SCIENCE & HUMANITIES
MOHANLAL SUKHADIA UNIVERSITY, UDAIPUR**

EVALUATION REPORT OF THE DEPARTMENT

The equal Opportunity Cell was established by Mohanlal Sukhadia University in November 2009 to address the issues related to SC/St, OBC, and minorities and differently able on continual basis and ensure equity. Prof. Nafisa Hatimi was appointed as its co-coordinator and a committee constituted with faculty members of different constituent colleges of the university as its members.

The Equal Opportunity Cell (EOC)

Soon after the Notification, the EOC decided to make every possible effort to effectively monitor implementation of policies that could provide equal opportunity to students and staff of the university. It was obvious that its major domains of activity would, among others, include:

1. Examine all possible ways in which the SC/ ST, OBC and minority groups could be helped.
2. Ensure that there is no discrimination in the University on grounds of disability minority status
3. Ensure a barrier free access to all buildings of Colleges, Departments, Libraries, Hostels and Offices.
4. To implement the reservation policy for SCs/STs in the University
5. To collect data regarding the implementation of the policies in respect of admissions, appointments to teaching and non-teaching positions in the university.

Functions

1. To ensure that St/Sc Cell of the university collects and submit detailed report to UGC and other Government agencies in respect of implementation of reservation policy, enrolment of students, appointment of teachers/non teaching staff, hostel accommodation, staff quarters etc. Consolidated data pertaining to the above are sent to UGC/State Government periodically and promptly.
2. Deal with representations received from SC/ST candidates regarding their admission, recruitment, promotion and other similar matters in the University.
3. Functions as a grievances redressal cell for the grievances of SC/ST students and employees of the university and render them necessary helps in solving their academic as well as administrative problems.
4. The cell actively involves itself in helping the students to get their scholarships/educational concessions from State Government, RajivGandhi National Fellowship for SC/ST doing M.Phil/Ph.D programmes and Post Doctoral Fellowship for SC/ST from UGC .
5. Monitor the activities related to the Conduct of Remedial Coaching Scheme for SC/ST/OBC (Non creamy layer) and minority students.

Some Initial Steps

1. Held orientation programme during admission to sensitize students and provide information.
2. Collected information of activities carried out by different cells.
3. EOC discussed problems faced by the cells and intervened with the University authorities for solution.
4. Information regarding policies information, special provisions sent to different cells.
5. Information regarding scholarships fellowships were displayed on notice boards and sent to the principles of affiliated colleges so that underprivileged students could avail them. (Copies attached)
6. Organized two UGC sponsored national Workshops on “Capacity Building of Women Managers in Higher Education”
 - a. Sensitivity Awareness Motivation Workshop from 5-9 Sept. 2011.
 - b. Management Skills Enhancement Modules from 10-14 April 2012.
(List of resource persons and participants attached)
7. Ensured the university authorities sent special information required by the UGC with regards to
 - a. Sexual Harassment Cell (Copy attached)
 - b. Security arrangement for female faculty and students. (Copy attached.
8. Sadbhavna days with the help of NSS volunteers were organized to sensitize students.
9. The Convener of EOC attended a workshop organized at NEUPA New Delhi on how to make EOC more effective and provided the guidelines to the University Authorities.

Future Plans

1. The EOC through various cells proposes to conduct outreach programmes in coordination with NGO's Panchayats to sensitize the society to bring about equity among various sections of the society.
2. To prepare foundation courses based on principles of inclusion UG and PG level

52.	<p>Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.</p> <p>STRENGTHS</p> <ul style="list-style-type: none"> • Department is one of the most reputed department. • It is the forerunner rather trend setter in establishing the “new school of critics”. • Our faculty is our strength comprising of six people out of whom five are under the age of 40. Thus we represent a young and growing department though in terms of establishment we are the oldest. • We have a team of more than 15 research scholars who are working towards their Ph. D. Degree in the capacity of JRF or SRF. • Post graduation strength is also high because of the popularity of the subject as well as faculty. <p>WEAKNESS</p> <ul style="list-style-type: none"> • We have no independent entity as we are a part of School of Social Sciences and Humanities, M. L. Sukhadia University, Udaipur. • We don't have independent budget allocation. • Ministerial staff is available on sharing basis. • No Departmental Library, hence poor availability of journals. • No independent class rooms for Post graduate classes.

	<p>OPPORTUNITIES</p> <ul style="list-style-type: none"> • Head of the Department as a member represents Languages in Sahitya Academy (among twenty members). • One Major and Five Minor research projects have been submitted to funding agencies. • Due to young staff members department has better research opportunities. • Department is recognized by various National bodies like Kendriya Sahitya Academy, Bhasa Sansthan etc. <p>THREATS</p> <ul style="list-style-type: none"> • All humanities subjects are under threat hence Hindi is also under threat. • Since department has no independent structure hence lack of funds hinder growth. • Quality of students available in the subject is degrading rapidly. • Inadequate funds for infrastructure in the department.

47. Briefly highlight the contributions of the department in generating new knowledge, basic or applied - NIL
48. Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.

Strength- Department has a faculty (Dr. Kunjan Acharya) who has experience of main stream media of more then 15 years. This experience and relations with media personalities helps the students to enhance the practical knowledge and industry exposure. Recently with the efforts of Dr. Acharya two students, Shailendra Singh and Ms Arbuda Pandya, have been placed in Dainik Bhaskar as Sub Editors with good package.

Weaknesses- Department is not recognised as per UGC norms. Shortage of faculty. Audio visual lab and helping staff should be depute.

Opportunities: Features on development of tribal area; interaction with print and visual media;

Challenges: Introduce Journalism as a subject at the UG and PG level

Future plans of the department.

In the next five years the first priority has to be given to establish a full-fledged department. We want to establish a Media Lab., Studio for practical work. We want to start a community Radio station of the University to give more practical exposure to the students. We want to publish our lab journal CAMPUS NEWS regularly which we have started in Oct. 2012, monthly.

	<ol style="list-style-type: none"> 1. we propose to start Two New Courses as under :- <ol style="list-style-type: none"> (a) M.Lib.I.Sc (Two year Integrated course) in due course of time (b) PGDLAN (One year fulltime PG Diploma course) 2. To established one computer Lab exclusively for PG Students of LIS with initially 20PC'S 3. To get separate Premises for Deptt of LIS for which the proposal has been submitted in XI & XII Plan of U.G.C.
52	Detail five major Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the department.
	<p>Strengths</p> <ol style="list-style-type: none"> I. Implementation of Modern curriculum II. Incorporation of Two IT papers in PG level III. Use of modern teaching aids such as LCD projector IV. Enriched departmental Library V. Students' assistance for placement. <p>Weaknesses</p> <ol style="list-style-type: none"> I. Lack of core faculty as prescribed by UGC II. Creation of Senior faculty post such as Professor and Associate Professor in the deptt III. Need of exclusive computer lab for PG and UG Students IV. Requirements of funds for procuring current addition of practice tools and separate premises. V. Requirement of well equipped modern classroom <p>Opportunities</p> <ol style="list-style-type: none"> I. It is second full fledged department of state running all types of courses from UG to Research. II. Producing well qualified professionals to serve any where in the country. III. The training in LIS is imparted using contemporary information access and retrieval. IV. Serving as a source department especially for working TSP area. V. The department intend to start few need based new courses such as PGDLAN. <p>Challenges</p> <ol style="list-style-type: none"> I. The department presently only two faculty have members taking care of all the courses from UG to Ph.D II. The majority of the students are from TSP areas such their English proficiency is very week while the literature of LIS is available in English. Thus we(faculty) taking care of the need of all LIS students to impart teaching, make available subject material in Hindi language. III. The practice tool of LIS are in English language only, thus to get them understand the intricacies of such practice oriented papers are resolved in the language which they understand. IV. We are badly needing an exclusive computer lab for our PG students to impart teaching of IT oriented papers presently the same is being shared between three departments. V. The department is running profession & job oriented courses in LIS as such we require a separate premises along with at least 5 faculty members without further delay.

STUDIES COMPLETED DURING 2009 -2010
STUDY-1
Reproductive Health Status of Tribal Women in Rajasthan

Objectives

1. To assess the socio-economic and demographic characteristics of tribal women.
2. To examine the level of Maternal and Child Health Care Services of tribal women.
3. To assess the awareness of tribal women about National Rural Health Mission (NRHM).
4. To analyse the utilization of Janani Surksha Yojana (JSY) by the tribal women.

Findings

1. About 87 percent of the respondents and more than half of their spouses was (57%) illiterate.
2. Two third (64%) of respondents were lived in Kachha houses and forty seven percent of the houses had one room.
3. More than of half (57%) of the tribal mothers performed their last delivery at the health institution.
4. About 96 percent of the respondents heard about ANM and Sixty percent of the respondents stated that health workers were available at the time of need.
5. Eighteen percent of the respondents heard about NRHM. Eighty four percent of the respondents heard about ASHA
6. Seventy one percent of the respondents were aware about the JSY scheme, the main source of awareness about JSY scheme was ANM (87.3%) and ASHA worker (78.9%).
7. About 74 percent of the JSY beneficiaries heard about JSY scheme before being pregnant.
8. About 58 percent of the JSY beneficiaries got registration in 3rd month of their pregnancy.
9. More than half of (52.6%) of the JSY beneficiaries were registered by ANM/FHW and about 68 percent of the JSY beneficiary registered at sub centre. All of the beneficiaries were received JSY card
10. About 95 percent of the deliveries take place at health institutions.
11. About 84 percent of JSY beneficiary used private vehicle as mode of transport to reach the ultimate place of delivery
12. About 47 percent of the JSY beneficiaries were satisfied with the services available at the health centre.
13. Average amount received by beneficiary as cash incentive was Rs.1000.

Policy Implications

1. The finding of the study reveal that majority (84%) of JSY beneficiary used private vehicle arranged by their family members as mode of transport to reach the ultimate place of delivery. therefore it is suggest that local health committee should be arrange vehicle at the crucial time
2. It has observed that at the time of delivery, doctor prescribed some medicine to purchase from medical store. Therefore it is suggest that all the medicine should be given to delivered mother free of cost from the health Institutions.
3. Satisfaction regarding the services available at the health centre shows that about 47 percent of the JSY beneficiaries were satisfied with the services available at the health centre. Therefore it is suggest that satisfaction of beneficiary should be increase through proper behaviour of staff and provide the physical facility free of cost.

STUDY-2

Knowledge and Satisfaction of Patients about NRHM Interventions at Dungarpur District Hospital

Objectives

1. Assess knowledge and satisfaction of patients about the NRHM intervention at district hospital.
2. To analyze socio-demographic background of patients.
3. To find out the reasons of revisit to district hospital only by visiting patients and attendants.
4. To identify the bottlenecks of selected district hospital.
5. To recommend major fields for improvement of patients satisfaction.

Findings

1. During last four years' 18303 institutional deliveries conducted by the district hospital of Dungarpur.
2. Majority (53%) of patients were ST and Hindus (74%). Only about 21 percent patients were illiterate and forty nine percent unmarried in our sample. Demographic status of sampled patients shows 51 percent male and 49 percent female. Fifty three percent were from rural areas and 72 percent from BPL class. About 30 percent patients were below 14 years and eighteen percent were above 41 years of age. Fifty percent each were IPD and OPD patients.
3. All patients had knowledge of different facilities and services of registration counter and different wards/sections of IPD & OPD of the DH. Majority of patients have knowledge about water cooler, refrigerator, medical stores, waiting space, wheel chair and laboratory facilities. All patients stated that lift is not available at DH.
4. Majority of patients did not know about hospital laundry, drainage/sanitation, round the clock water, bio-medical segregation/disposal system and hospital kitchen facilities.
5. Majority of patients were not knowing MTC, FBNC, construction / renovation works, GNM posting, DNRHMC, health insurance scheme, and training/workshops related NRHM interventions. Some interventions were very much popular among patients, such as, ASHA, Yashoda and SCY. Fifty percent patients had knowledge of AYUSH and PPP. About 94 percent patients had knowledge about JSY.
6. Six reasons namely, poor economic condition, no other hospital, good services, free medical aid, doctors' advise and good staff were mentioned by majority of patients/attendants to revisit this facility. Only 44 percent of the patients bestowed that facility is near to village as reason of revisit.
7. Major bulk of patients is satisfied with ventilation, medical store, fire fighting facility and BPL counter.
8. Out of total interviewed service providers 11.25 percent did not give any explanation about bottlenecks of hospital. About 26 percent stated that senior/junior specialist's posts are vacant in the hospital. Construction work as a problem for smooth functioning of hospital was expressed by 22.50 percent respondents.
9. Regarding attention of staff, 20.50 percent patients enlightened proper and adequate attention not given by hospital service providers. One fourth has not expressed views on bottleneck of hospital functioning. Fourteen percent respondents stated that skin, mental, orthopedic and dental specialists are not available in the district.

Policy Implications

1. Sanctioned posts of senior/junior specialists and medical officers should be filled at district hospital for better hearing and satisfaction of the patient. This hospital should be provided "A" grade hospital facilities.
2. Hospital administration and staff should be cooperative- supportive-attentive in fulfillment of patients' expectations and service needs. For greater satisfaction, patients and service providers should have proper understanding of each other and helping approach.

3. Adequate and functional infrastructural facilities should be developed. Skin, mental, orthopedic and dental sections/wards should be started at district hospital.

STUDY-3

Impact Assessment of Institutional Delivery Care Services in Tribal Areas of Rajasthan

Objectives

1. To study the socio-demographic background of the beneficiaries (women) of institutional deliveries.
2. To assess the awareness of beneficiaries about Janani Surksha Yojana (JSY).
3. To assess the quality of services and facility of institutional deliveries at selected Community Health Centres (CHC's) in tribal area's.
4. To assess the level of satisfaction about antenatal, delivery care and postnatal care services provided by health personal to beneficiaries of institutional deliveries.

Findings

1. According to progress report of NRHM office of the district Dungarpur there were 189950 pregnant women registered during April 2005 to March, 2010 and out of them 88,121, (46.39%) deliveries were done at the health institutions and benefited by Janani Surksha Yojana.
2. At the selected both (Damdi and Bichhiwara) CHC's not all but most of the required infrastructure and facilities of delivery care services were available at the time of survey.
3. Manpower in terms of obstetrician, General Surgeon, Blood technician, OT, Sister were not posted in both the selected CHC's at the time of survey.
4. Majority of the institutional delivery beneficiaries were (96.52%) were belong to Hindus, (80.43 %), schedule tribes, (90%) belong to below poverty line (BPL) and (70.43%) belong to 21 to 30 years age.
5. 96.52 percent of institutional deliveries outcome alive birth. About 95 percent deliveries reported normal deliveries and average weight of new born baby estimated 2.65 kg.
6. 95.22 percent pregnant women were received at least three ANC with two TT injection and 90 days of IFA tablet or Syrup and all the mothers were received postnatal checkup within a week while 76.52 percent after a week.
7. 88 percent child were received fully immunization (BCG, Measles, three doses each of DPT and Polio, including Polio-o at birth) who birth at Health institution.
8. Majority of the beneficiaries (93%) of institutional deliveries were satisfied by antenatal care services followed by 78.26 percent by delivery care and 76.65 percent by postnatal and ASHA's services. 91.30 percent mothers were satisfied by their newborn children immunization services.

Policy Implications

1. Record keeping system should be well improve and to make effective planning and frequent supervision should be needed time to time.
2. Improvement for the performance of institutional delivery in tribal area's should be improve the awareness, infrastructural facilities, availability of staff and labour room with all facility require for conducting safe delivery.
3. It is suggested that mother who having only one or two children must be given more money for incentives in comparison to who having three, four and more children at the time of institutional delivery.

4. Effective IEC should be promoted by mass media about improve the institutional delivery in the tribal areas.

STUDIES COMPLETED DURING 2010 -2011

STUDY-1

Improve the HMIS data quality of Rajasthan 2009-10

Objectives

1. To assess month wise completeness of data uploading-State and district level, (data uploaded and committed)
2. To assess Completeness of data element wise (Coverage/Zero and Blanks)
3. To analyse district wise consistency checks through validation error/outlier checks.
4. To find out the Institutional availability of services-based on quarterly and annual reports (district and state wise)

Methodology and coverage

District wise consistency checks through validation error/outlier assessed on line on HMIS portal and ever forth night transmitted to ministry

Findings

1. State has District wise HMIS data uploaded and committed regularly on HMIS portal.
2. District wise all data element was complete.
3. The following elements of data having repetitively validation Errors.
 - a) Live births and still births was reported less than the total delivery.
 - b) Number of complicated pregnancies treated with antibiotics was higher than the number of cases of pregnant women with Obstetric Complications attended at public facility
 - c) Number of complicated pregnancies treated with anti hypertensive or Magsulph injection was higher than the number of cases of pregnant women with Obstetric Complications attended at public facility
 - d) Number of complicated pregnancies treated with Oxytocis was higher than the number of cases of pregnant women with Obstetric Complications attended at public facility
 - e) Number of complicated pregnancies treated with blood transfusion was higher than the number of cases of pregnant women with Obstetric Complications attended at public facility
 - f) Total MTPs conducted at Public Institutions was more than to spontaneous and induced abortions.
 - g) Number of infants given BCG was higher than the Live Births.
 - h) Number of fully immunized infants was higher than the infants given vaccination for Measles.
5. The information of district and state wise report financial management was partially completed.
6. Annual and quarterly report of HMIS format was completed.

STUDY-2

Improve the HMIS data quality of Rajasthan 2010-11

Objectives

1. To assess month wise completeness of data uploading-State and district level, (data uploaded and committed)
2. To assess Completeness of data element wise (Coverage/Zero and Blanks)

3. To analyse district wise consistency checks through validation error/outlier checks.
4. To find out the Institutional availability of services-based on quarterly and annual reports (district and state wise)

Methodology and coverage

District wise consistency checks through validation error/outlier assessed on line on HMIS portal and ever forth night transmitted to ministry

Findings

- State has District wise HMIS data uploaded and committed regularly on HMIS portal.
- District wise all data element was complete.
- The following data elements having major validation Errors.
 - i) Ten districts reported validation error in infants given BCG. Four districts namely Churu, Ganganagar, tonk and Hanumangarh districts reported error in all the months in a year. Alwar, Bikaner, Jaipur and Jhunjhnunu districts reported error in 11 months in the year. Ajmer and Bharatpur districts reported error in six and eight months in a year respectively.
 - j) Three districts reported validation error in total live births and still births. Bharatpur and Jaipur districts reported error six months in a year, while Rajsamand district reported error eight months in a year.
 - k) Two districts reported validation error in complicated pregnancy treated with Antibiotics. Alwar district reported error eight times in a year and Jaipur district reported error nine times in a year.
 - l) Two districts reported validation error in complicated pregnancy treated with Oxytocis Alwar and Jaipur districts reported error eight times in a year respectively.

STUDY-3

Validation of Pregnant Women and Child tracking in Rajasthan (A study of Badgav Block of Udaipur District)

Objective

1. To assess the correctness of reported cases of pregnant women and child tracking
2. To assess the validation and completeness of services provided by ANM
3. To assess the role of ANM and ASHA- SAYOGANI in tracking of pregnant women and children.

Methodology and coverage

Personal contact, Record Examine, record collection, discussions, observations, free listing, etc. Two PHCs and six sub centres was covered for the study.

Findings

1. All the reported cases of Pregnant women and child tracking found correct in the field
2. ANM delivered the ANC, PNC and immunization services according to schedule of services.
3. All the registered cases of pregnant women give the benefits of JSY
4. The contact Number (Phones / Mobile) of Most of pregnant women was not entered in ANC Form.
5. Two cases of ANC III reported the drop out because they go to their parents' house for delivery purpose.
6. Every and each pregnant women of village are registered for ANC services and majority (78%) of them was registered in first trimester of pregnancy.
7. ANM takes BP, Hb, Weight at each ANC of pregnant women
8. Hepatitis B vaccination is not available at sub center, PHC and CHC

9. At grass root level ASHA- SAYOGANI coordinated the nutritional and health services of pregnant women and children.

STUDIES COMPLETED DURING 2011-12

Study -1

Level of reporting of Maternal and Child Health Services mainly Institutional Delivery and Immunization in the HMIS in Public and Private Institutions and ways to Estimate missing data: A study of Bhilwara District

Objectives

- To identify whether all service providing units are reporting for HMIS or not, if yes, since when.
- To identify the units which are not reporting for HMIS.
- Whether the reporting units are providing data on all maternal and child health indicators as per HMIS.
- Whether reporting units are regular in reporting or not.
- Whether proper mechanism to collect data from hospitals in the public/ private sector exists in the system.
- System of record maintenance of services rendered.
- Other related issue.

Findings

1. All the service providing units were reporting HMIS and they were providing data on all the indicators as per HMIS format in their respective forms.
2. CHCs, PHCs and sub centers were regularly reporting the data in HMIS format.
3. Data flow of HMIS was irregular of the district hospital and sub district hospital.
4. In Bhilwara district there is no accredited private institutions for maternal and child health services.
5. The common validation error in data was reported that number of infant received BCG is more than the live births.
6. Most of pregnant women get registered in late stage in Sahara block of Bhilwara district

Recommendations

1. LHV and Medical Officer should be carefully in checking the HMIS data format submitted by ANM.
2. LHV should visit sub centers frequently and check the validation of data.

Study-2

Level of reporting of Maternal and Child Health Services mainly Institutional Delivery and Immunization in the HMIS in Public and Private Institutions and ways to Estimate missing data : A study of Bharatpur District.

Objectives

- To identify whether all service providing units are reporting for HMIS or not, if yes, since when.
- To identify the units which are not reporting for HMIS.
- Whether the reporting units are providing data on all maternal and child health indicators as per HMIS.
- Whether reporting units are regular in reporting or not.

- Whether proper mechanism to collect data from hospitals in the public/ private sector exists in the system.
- System of record maintenance of services rendered.
- Other related issue.

Findings

1. All the service providing units were regularly reporting the data in HMIS format.
2. Hepatitis B1, B2, B3 vaccination was introduced in Bharatpur district.
3. MTP, Caesarean delivery and blood transfusion facilities are available only at district Zanana Hospital.
4. The slightly difference in number of deliveries and out put of delivery was recorded in the registers and PCTS at all the levels.
5. The BCG cases were over reported in the registers in comparison to PCTS.

Recommendations

1. The District and Block Programme Management Units may be regular monitor the HMIS reports.
2. The Block Programme Management Units need to carefully examine the completeness, accuracy and validation issues of data in reporting formats before uploading the data.
3. LHV should visit sub centers frequently and check the validation of data.

study-3

Validation of Pregnant Women and Child Tracking in Alwar District of Rajasthan

Objectives

1. To assess the process of tracking the pregnant women and children from the area.
2. To find out correctness of reported cases of pregnant women and children tracking
3. To assess the validation and completeness of services provided by ANM
4. To assess the role of ANM and ASHA- SAYOGANI in tracking of pregnant women and children.

Findings

1. The reported cases of pregnant women and children tracking found correct in the field.
2. All the registered pregnant women were given the benefits of JSY.
3. The contact number of the most of pregnant women (83%) was not entered in ANC Form.
4. The vehicle facility was available on call to bring the pregnant women for delivery at link facility.
5. Hepatitis B vaccination was not available at sub center, PHC and CHC.
6. About 33 percent of pregnant women were registered in first trimester of the pregnancy.

Recommendations

1. LHV should visit sub centers frequently and check the validation of data in SDR maintained by ANM.
2. LHV should randomly verify the some indicators of RCH in field.

Study - 4

Underlying Causes for Data error in HMIS : A Study of Alwar District

Objectives

1. To find out most frequent errors in reported data of HMIS district-wise.
2. To classify the error theme wise, eg. Maternal health, Child health, FP etc.
3. To identify districts for studying these errors for each theme.
4. To make field –visits to understand the mechanism of data collection and reporting and trace the source/ reason for data error.
5. To check whether the state apply the validation rules before uploading data on HMIS portal.
6. To suggest measures to improve quality of HMIS including suggestions for training inputs.
7. Any other related matter.

Findings

1. All the service providing units were reporting HMIS information regularly.
2. There was no separate register for ANC registration at the district hospital, .but they recorded information about immunization in a separate register
3. Most of cases under gone for post partum sterilization at district hospital.
4. The cases of normal delivery was seems to be very high at CHC.
5. Frequency of delivery at PHCs were less.
6. Sub centres were provided vaccination in once a month.
7. Caesarean delivery and blood transfusion facility were available at district hospital and private hospitals only

Recommendations

1. The District and Block Programme Management Units should be regular monitor the HMIS records
2. LHV and Medical Officer should be carefully in checking the HMIS data format submitted by ANM.

STUDY-5

Underlying Causes for Data error in HMIS :A Study of Kota District

Objectives

1. To find out most frequent errors in reported data of HMIS district-wise.
2. To classify the error theme wise, eg. Maternal health, Child health, FP etc.
3. To identify districts for studying these errors for each theme.
4. To make field –visits to understand the mechanism of data collection and reporting and trace the source/ reason for data error.
5. To check whether the states apply the validation rules before uploading data on HMIS portal.
6. To suggest measures to improve quality of HMIS including suggestions for training inputs.
7. Any other related matter.

Findings

1. Most of posts of programme management units were lying vacant at all the levels in the district
2. All the service providing units were reporting HMIS information regularly
3. The data entry facility was available at district hospital, CHC and PHC. level in the district.

4. In kota city about 40 health institution is running in private sector, they do not submitted the HMIS Information in time.
5. More than 60 percent of pregnant women registered in Ist trimester for ANC at different level of facility
6. No case of maternal death and Failure of sterilization recorded at various level of facility
7. Blood transfusion facility available at district hospital

Recommendations

1. At the time of data entry, HMIS format should checked carefully and properly with reference to completeness, accuracy , data validation issues
2. The posts of all the levels of Programme Management units may filled so work run smooth.

STUDY-6

Immunization Status of Children : A study of Gogunda Block of Udaipur District of Rajasthan

Objectives

1. To find out the level of infants received BCG , DPT, Polio and measles .
2. To examine status of fully Immunized infants.
3. To find out the role of ANM and ASHA for timely providing the immunization services to infants.
4. To assess the procedures of providing the immunization services to children.

Findings

1. All the reported cases of children immunization found correct in the field.
2. Nearly 90 percent children were fully immunized in the selected areas.
3. About three fourth of mothers had Jachha Bachha cards.
4. Majority of mothers (83%) received three ANC during last pregnancy.
5. About 92 percent women delivered at health institutions.
6. ANM, ASHA- SAYOGANI and Aganwadi workers were tracking the children on Immunization day at sub center.

Recommendations

1. The Village Serpanch and wardpanch are looking the activities of ANM, ASHA and Aganwadi workers. Therefore it is suggested that local leaders should be regularly involved in immunization programme so all the children covered.
2. LHV should be randomly verifying the cases of children Immunization.
3. ANM , ASHA and Aganwadi worker should made effort to cover the drop out of children for immunization

Study -7

Improve the HMIS data quality of Rajasthan 2011-12

Objectives

STRENGTHS <ul style="list-style-type: none"> • Department is a very reputed department. • Our faculty is our strength comprising of three people Two are under the age of 40. Thus we represent a young and growing department. • We have a team of more than 08 research scholars who are working towards their Ph. D. Degree in the capacity of JRF or SRF. WEAKNESS: <ul style="list-style-type: none"> • We have no independent entity as we are a part of School of Social Sciences and Humanities, M. L. Sukhadia University, Udaipur. • We don't have independent budget allocation. • Even Ministerial staff is also available on sharing basis. • No Departmental Library, hence poor availability of journals. • No independent class rooms for Post graduate classes. OPPORTUNITIES <ul style="list-style-type: none"> • Head of the Department as a member of rajasthan sanskrit academy and Rajasthan state sanskrit advisory board. • One Major Research Project has been sanctioned by funding agencies. • Due to young staff members department has better research opportunities.

SC/ST CELL
UNIVERSITY COLLEGE OF SOCIAL SCIENCE & HUMANITIES
MOHANLAL SUKHADIA UNIVERSITY, UDAIPUR

EVALUATION REPORT OF THE DEPARTMENT

SC/ST cell of Mohan Lal Sukhadia University, Udaipur is functioning since 1995. It primarily administers the reservation policy in admissions and recruitments. It also takes up the grievances and complaints received from students and employees of SC/ST Category. The cell has been playing greater role in developing proper understanding of reservation policy and getting justice to reserved category students and employees. To develop greater transparency in student's admission with reference to reservation policy dual surveillance system is followed. At first stage a member of SC/ST category is kept in admission committee and a standing committee visits each department before finalization of admissions to check the admissions from reservation point of view.

To develop greater access of students, a box for complaints and suggestion have also been fixed at all constituent colleges of university and monthly these boxes are opened and actions complaints are initiated. For better disclosure of schemes and reservation policy, the cell has been distributing a leaflet at the time of admissions in which various facilities available to SC/ST students in university are mentioned in detail.

The university is located in tribal area thus cell is determined to inculcate competitiveness among the students these category. A program to honor the meritorious students of SC/ST attaining more than 65% marks in various UG, PG and other courses or qualified UGC NET or Ph. D. has been designed with this objective. Such kinds of programs at university level in country for the underdeveloped sections of society are rare. The university has been pioneer in organizing such program and two times university has already organized this program. This time the program is scheduled in the month of April 2013.

S: 5 Professors, New and fresh Environment in New Building, The Department is pioneer in incorporating modern teaching methods like LCD Projectors, Use of Audio-Visual Techniques, Indian Commerce Association is establishing their Head office at Vanijya Bhawan.

W: Lack of Faculty, Lack of Non Teaching Staff, Absence of IT lab and Update Library to match with the Modern Teaching Pedagogy, Less Technological Orientation, Lack of Placement Cell, No Canteen Facility for Students, Lack of regular Personality Development Programmes, Lack of Cycle Stand at Vanijya Bhawan

O: Delinking of PG and UG Courses has provided an opportunity to focus on Research as per the industrial needs, Strategically situated in the TSP region to provide financial education in the backward area, Scope of starting more courses as per the niche industrial requirements, More Strategic partnerships with national and international associations and institutions of repute for course development and training, Services are contributing 62% in GDP and Banking and Insurance Sector contributing the highest in it. So there is a going demand of Banking and insurance professionals, Only 2% population is under insurance coverage. It will require huge amount of insurance people, Nearly 1 Lakh 50 Thousand recruitments by Banks by 2015, Total International Trade of India is growing by 20% per annum, which demands huge professional base for it support

C: Placement of students in corporate sector, Extension activities of banking and awareness of insurance in tribal area, Continuous up gradation of syllabus as per the aspiration of industry needs, Interface of Industry and Department, Motivation to Scholars and Students for Quality Research
