- Online and Digital Education

**“I will not let anyone walk through
my mind with their dirty feet.”**

M. K. Gandhi

Gandhiji is known as an activist, a leader, a philosopher, a philanthropist, but above all he was a visionary teacher. His teachings continue to inspire generations to come. His very thoughts on education are reverberated in almost all the policy documents on education. The new National Education Policy 2020 also reflects his ideas.

Gandhiji considered education as an effective instrument for liberation, equality and justice. He was of the firm opinion that true and original education remains natural, environment-friendly and useful in life and results in all round development of individual and society with self-reliance and dignity of labour.

Gandhiji believed in holistic education. He stressed on the need for **lifelong learning from and within society** to bridge manual and mental labour. Gandhiji's ideas of education were not alienated from society. His Nai Talim with its “Experiential Learning” was also a means of “Community Engagement” to solve problems of self, society, nation and world at large. Cleanliness and sanitation were the two problems close to Gandhiji's heart and he set exemplary practices in them.

Department of Education, MLSU in collaboration with Mahatma Gandhi National Council of Rural Education, Department of Higher Education, Ministry of Education, GOI is celebrating Gandhi Jayanti, October 2, 2020 by organizing a seminar. **“Reminiscence of Gandhiji in National Education Policy 2020” on October 2, 2020.**

The main objective of this seminar is to evoke a sense of responsibility among teacher educators to realize Gandhian vision of education that has been echoed in the new National Education Policy 2020.
