About the Webinar

Kothari Commission has considered teachers to be most important of all factors that determine the quality of education. Teachers truly shape the future of our nation. Hence, teachers are at the centre of any fundamental reform in the education system. Universalisation of new National Education Policy 2020 envisions

- An important role in elementary & higher education
- Developing India as envisioned in its constitution
- A democratic, just, socially conscious, cultured, & humane nation upholding liberty, equality, fraternity & justice for all.

The policy, so pious in spirit & vision, needs enthusiastic & empowered teachers who own the policy and perform the “Yojna” i.e. function towards the holistic development of learners.
